## GETTING STARTED WITH PINGWING

- 1 Plug the device in to “wake it up” and let it charge for an hour before first use.
- 2 Download the PingWing App from the Apple store or Google Playstore.
- 3 Once app is downloaded, open the app and follow the on screen instructions for pairing and use.
- 4 To power on, press and hold button until green lights flash
- 5 To power off device double click and hold button until red lights flash

## HOW IT WORKS

When you receive a call or a message, PingWing can notify you via lights and/or sound. If you miss a call, PingWing will blink discreetly using colors to let you know who it was.

Can't find your phone? Just ping your phone and make it play a sound so you can find it.

Can't find the PingWing (on your keys, purse, etc.)? Press the "Find my PingWing" button in the app, and the PingWing will make a sound so you can find it.

PingWing works as a camera shutter button to make taking selfies and group pictures much less awkward!

## CHANGE THE STYLE

WANT TO CHANGE THE LOOK OF THE PINGWING  
GO ONLINE TO: [WWW.PINGWING.COM](http://WWW.PINGWING.COM) TO SEE THE VARIETY  
OF DIFFERENT CASES AND WAYS TO STYLE THE PINGWING TO  
YOUR NEEDS

## USE AND CARE

Your PingWing is water resistant, not waterproof.

PingWing works best between 14 and 140 feet from your phone.

Exposure to extreme hot or cold could affect performance.

Do not charge the device at ambient temperatures below 32 degrees F (0 deg. C)

Choking Hazard - PingWings are fun, but they're not toys. Please keep them out of reach of young children and pets.
