This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Welcome to use all day shot

Bluetooth connection procedure

- ① Long press the power button "②" two seconds to open the bluetooth
- ② For the blue lights flashing
- ③ Open the phone bluetooth, search the bluetooth devices
- ④ Click "ADYSS -A8" connected bluetooth devices wait for 5 seconds, the blue light long on matching success

Parameter

The maximum bearing capacity: 500 g

Extension length: 179-785 - mm

Main material: aluminum alloy and ABS plastic

Net weight: 130 g

Frequency of products: 2.4 g

Charging time: 0.5 hours

Brightness: 3

Support: android to iOS

Operating voltage: 3.6 ~ 4.2 v

Battery capacity: 500 mAh

Standby time: 1 year

Working current: 3.5 mA

Working temperature: - 10 ° ~ 40 °

Charging voltage: DC5V

Fill light time: 6 hours
