LED LAMP

LA70-U180-D120-006-XX

Foreword

Thank you for using our new A21 LED Smart bulb with Bluetooth and speaker!

Embrace the new style and convenience from Blue Sky Wireless to enjoy your music wirelessly anywhere throughout your home

How to use your smart bulb

- Install the LED smart bulb into your preferred lamp fixtures
- Turn your lighting fixture's appropriate electric power ON.
- Open the settings in your Bluetooth enabled smart device and make sure Bluetooth is turned ON.
- Locate the device name and select it. Your smart device will confirm a successful wireless connection.
- Once you have a connection, use your preferred audio/music app to listen to your favorite tunes. Playback will occur through the speaker bulb.

Caution

- Suitable for dry locations.
- Min. starting temperature -20 °C
- This device is not intended for use with emergency exits.
- Not Suitable for use in totally enclosed, recessed luminaires.
- No dimming
- Install or remove bulb from fixture by grasping the plastic base only.
- To avoid electrical shock turn off power before replacing bulb.

FCC Statement

- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/ TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, Human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation
