

User Manual

Product Name: Ultra Mini 4K Streaming PC / Mini Smart Cloud PC

Brand: Ollee

Model: MAHMG, MAPMG

Manufacture: ILIFE Technology (HK) Limited

Service assurance description

Thank you for your purchase of this product, you can enjoy the free of charge for one year parts and labor service that our company provide.

The following situations need to provide services by the company, it will be appropriate to charge maintenance

costs:

- carry on the improper operation not in accordance with the manual or the instruction booklet.
- Man-made damage, computer viruses, damp, improper software installation or self remove the computer and so on.
- Fire, flood, typhoon, earthquake and other force majeure.
- Accessories, supplies,Wastage caused by natural use.
- If it need the company to reinstall the software or adjust the computer settings, the company will be appropriate to charge fees.
- The company warranty identification signs of damage or contamination, leading to identification.

Before repairing the product , please backup personal data files separately, repairing process may affect the data maintenance integrity.

The company provides maintenance services, in order to be bought for your peace of mind at ease with.

Product Specification

Product interface description

| | |
|-------------------|-----------------------------|
| Processor | Intel Apollo lake N3450 |
| Operating system | Windows 10 |
| ROM | 4GB DDR3 |
| RAM | 64GB eMMC |
| Dispaly interface | HDMI(Support 4K output); |
| Wireless device | WIFI 802.11 ac/ a/b/g/n; |
| Network interface | Gigabit Ethernet |
| Usb interface | Standard USB3.0*2, USB2.0*2 |
| Power input | 12V=2A,DC-IN |
| Size weight | 165x155x30mm; 560g |
| | |

- 1、 Power button
- 2、 LED
- 3、 3 USB2.0*2
- 4、 SB . * U 3 0 2
- 5、 Power interface
- 6 、 MIC
- 7、 SKP
- 8 、 HDMI

- 10、 RS-232
- 11、 Network interface

Remarks:

1, The low power RF motor is qualified products, without permission, the company, businesses or individuals shall

not be allowed to change the frequency, increase the power or change the original design of the characteristics and functions.

2, The use of low frequency radio electric machines shall not affect the safety of flight and the interference of the

legal communication; if there is interference phenomenon, it should be stopped immediately, and it can be improved

to continue to use with no interference. legal communication, refers to the radio communications in the work according

the law, low frequency radio motor must be able to endure the legal communication or industrial, scientific interference

and the interference waves radiant electric equipment for medical use.

3, This product contains the CMOS board of the use of micro battery, please do not replace it privately; such as

Consumers replace the incorrect models of the battery, this may be dangerous, please properly handle it.

Package includes

- 1.HiBox*1
2. anual (Warranty Card)*1、ertificate*1 M C
- 3.Adapter*1、 Bracket*1、 Screw*4
- 4.HDMI Video *1

Use manual

1. Connect the device display devices through the HDMI line(such as: TV, screen, projector and other devices),and choose the display device of the video input source to connect the HDMI input channel.
- 2, DC-IN power supply: connect the power line of DC-IN interface and the device, and directly plug the other end into the jack plug.
- 3, Connect the USB interface cable or wireless keyboard and mouse (choose the chuwi HiBox wireless remote control to operate).
- 4, Press the power button to start the system.

Adapter (accessories)

Can be matched with Bluetooth or wireless keyboard mouse

(provide for oneself)

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ -Reorient or relocate the receiving antenna.
- ▶ -Increase the separation between the equipment and receiver.
- ▶ -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- -Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information:

This Ultra Mini 4K Streaming PC / Mini Smart Cloud PC meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: Ultra Mini 4K Streaming PC / Mini Smart Cloud PC (FCC ID: 2AN4T-MPC-AMG) has also been tested against this SAR limit.

The highest SAR value reported under this standard during product certification for use at the body is 1.131W/kg. This device was tested for typical body-worn operations with the back of the handset kept 10mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 10mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should

not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

For 5150-5250 frequency band, add below statement for indoor use warning statement on manual,
Operations in the 5.15-5.25GHz band are restricted to indoor usage only.
