

Differences declaration

Our company Shenzhen XinFuChuang Electronic Co., Ltd

applies for FCC ID certification, application number

UNIA2018091728FR-01, product name: Video baby monitor

FCCID: ID:2AN6W-XF-808

There are several models of the product. The difference between the models is that the internal structure and circuit board of each product are the same. Only the shape of the shell will be different in color, but it will not affect the emc and other properties of the product.
