

Meet Somabar[®] The Robotic Bartender

Your Guide to Automated Bartending at the Press of a Button

Introducing your Somabar.

Let's get started.

Somabar is the world's first automated bartending machine. It makes drinks in under 10 seconds and includes a menu of over 300 customizable cocktails. Oh, it even cleans itself.

Out of the box, onto your counter.

1. Start setting up your Somabar by placing it onto a counter or another sturdy indoor surface.
2. Fill up the Somabar's internal reservoir with clean water.
3. Plug Somabar in to the nearest outlet.

Connecting your Somabar.

The **Somabar App** is the brains behind the bartender. It gives you access to over 300 cocktail recipes, as well as the ability to create and customize your own drinks. You'll use the Somabar App to set up your Somabar, tag Soma Pods with ingredients, and make your favorite cocktails.

Wireless Automated Bartending

1. Make sure your device's WI-FI® is turned on, and that your device is connected to your preferred network.
2. Now download the Somabar App from the App Store® or Google Play™ and open the application on your device.
3. Just follow the simple steps to set up your Somabar.

Seven Soma Pods. Endless Possibilities.

Somabar comes with six 750ml Soma Pods and one 150ml Soma Pod for bitters or syrup.

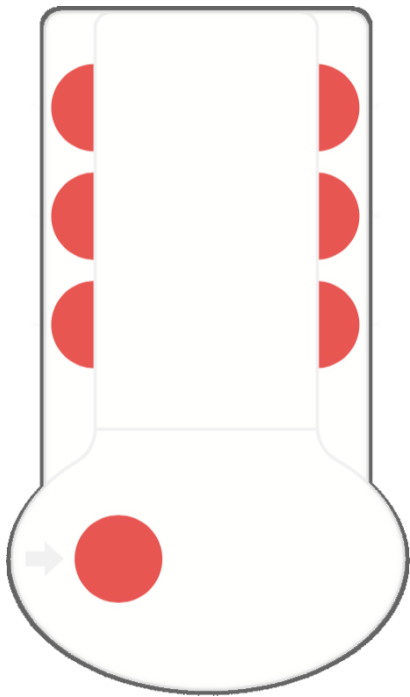

Fill them up with your favorite ingredients or with ingredients suggested by the Somabar App.

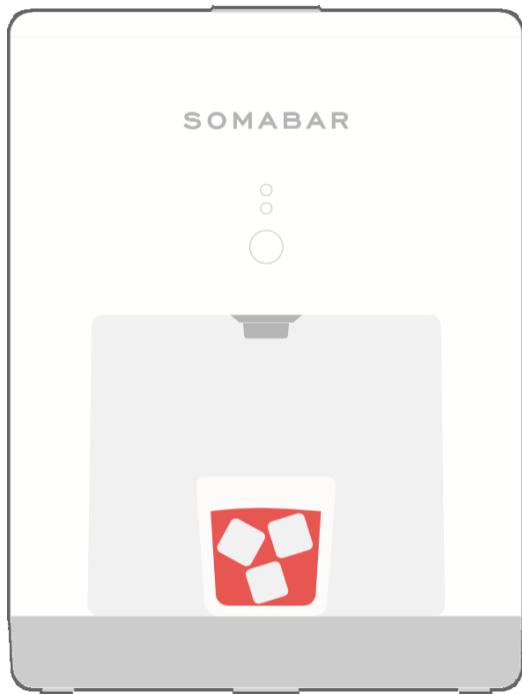

Be sure to wash the pods when you change ingredients (and before first use). Don't forget, they are dishwasher safe.

Insert. Tag. Forget.

Press the Soma Pods firmly into an available slot on your Somabar. Remember that the 150ml Soma Pods goes inside the top of the Somabar.

The Somabar App will ask you to what each Soma Pod contains the first time you insert it. Thanks to an integrated RFID chip in each Soma Pod, Somabar remembers your choice until you say otherwise.

Select. Enjoy.

Based on the contents of your Soma Pods, the Somabar App will suggest drinks to make. Simply tap on a recipe and your cocktail will dispense under ten seconds.

If you want to try something different, you can always create your own recipe (or customize one of ours).

Somabar will automatically flush itself with clean water from the internal reservoir in between different types of drinks.
