-  9 REMOTER

# PRODUCT PARAMETERS

Model	TG-YUP105
CRI	>90
Color	RGB+CT
Beam Angle	>220°
WaterProof	IP20
Dimension	121x64mm
Rated Power	8w
Luminous Flux	560LM
Light Efficiency	70LM/W
Voltage Range	AC85-265V
Frequency Range	47~63Hz
Color Temperature	2700K-6500K
WiFi Distance(Free space)	>50Meters
Operating Temperature Range	-20~45°
Support IEEE802.11b/g/n Wireless Standards	
Android system(at least 4.3)	IOSsystem(at least 6.0)

## **Warning Statement**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
