### WiFi Smart Devices Manual

#### Works with Alexa

Simplified steps to install App on your smart device and pair with Amazon Alexa and Google Assistant using Smart Life App on Apple Store/Google Play Store

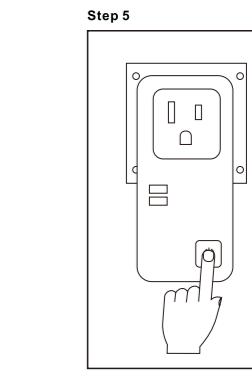

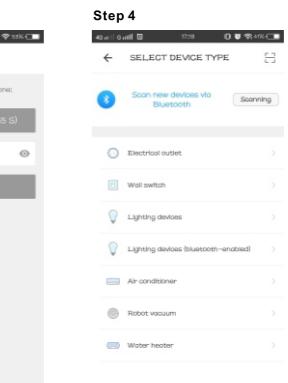

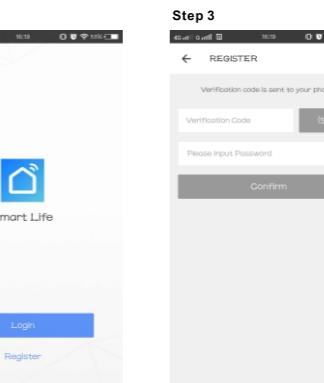

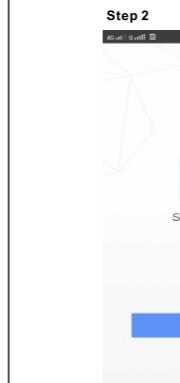

### Adding a New Device in Quick Connection

Download or scan the QR Code and install the Smart Life App for either iOS or Android.

#### Step 1:

Open the Smart Life APP and Register your phone number or email

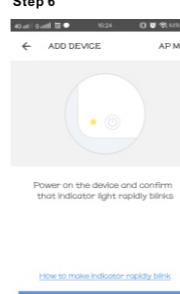

Fill in the verification code that you have received and fill in the password. Sign in the APP

Select the device type and click the "Electrical Outlet"

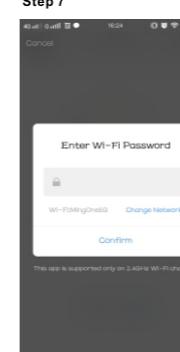

Long press the power button for more than 5 seconds until the indicator light begin to flash quickly(2 times per seconds). This means the device is already ready for configuration.

#### Step 6

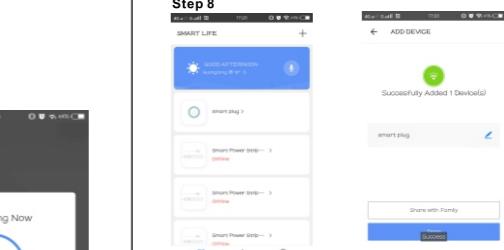

Open your APP and click the "Confirm indicator rapidly link"

#### Step 7

Make sure that your device is close enough to your WiFi router(The smart WiFi devices only support 2.4GHz), enter your WiFi password, click "Confirm" and it shows "Connecting Now".

#### Step 8

Adding a New Device in AP Mode

If the device is connected successfully then the indicator light will no longer flash. Then you can control the smart plug to turn ON/OFF.

\*Make sure the WiFi device is standby(the green light of WiFi device flashes 1 time in 2 seconds) after plug in the socket.

\*Press "+" in the main menu of app

\*Click "AP Mode" and press "Next Step" in Add Device

\*Select WiFi and input WiFi password, press "Next" in Set up WiFi for device

\*Press Connect now

\*Go to WLAN setting in your smart phone and select the "Smart Life" for your WiFi, no need

to input password once you select the "Smart Life" (you can directly to connect it if your OS is Android)

\*Go back to app and press "Connect" Device name is "Smart Life"

\*Confirm Device

Once App is installed on your device and you have added your smart device to your app you will be able to control it.

## **FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

## **FCC Radiation Exposure Statement:**

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
