FAQ

Q1: The keyboard and mouse can not be connected.
A1: Please switch on the keyboard, press “Esc” + “=”, then observe the LED indicator light. Plug the 2.4GHz USB receiver into the computer. Within 10 seconds, place the keyboard at 10 cm near the receiver for pairing. When the light turns off, the keyboard pairing is successful.

mouse: Press and hold the left, middle, and right buttons of the mouse until the indicator light flashes, then plug the USB into the computer

Q2: What should I do if the keyboard gets delayed or stuck?
A2: Please check there are no 2.4GHz devices (e.g., routers) nearby that may interfere with the connection. Ensure there are no full-metal cases blocking the signal.

Q3: Where is my USB receiver?
A3: Take out the USB from the back of the mouse. The mouse and keyboard share one USB.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device,pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation. If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
