Dear Sir or Madam:

The RF chip, model MSM8909, which installed in our product LTE phone, model: Wileyfox Pro, FCC ID: 2ANCIWFWPRO5017, only supports 2G functions. The mobile phone will not support/enable the 3G and 4G function . The 3G and 4G function has been shielded by the manufacturer using the software. This product does not sell to the United States.

Best Regards,

Sincerely,
