

- Nickel-plated brass body for enhanced corrosion resistance: Nickel plating is the most weather-resistant, corrosion-resistant metal plating.

Applications:

- Mesh networking applications
- 2.4 GHz wireless applications
- Point to multi-point systems
- Base station antennas
- WiFi access points
- WiMAX base stations

SPECIFICATIONS:

Model	Freq. (MHz)	Gain	Vert BW	Weight	Dimension (L x Dia)
A208Nm	2400-2485	8dbi	18 deg	0.3 kg (10.6oz)	540 x 15mm (21.25x.60in)
Parameter	Min	Typ	Max	Units	
<u>VSWR</u>	1:5:1				
<u>Impedance</u>	50	Ohm			
Input <u>Power</u>	10	W			
Rated Wind Velocity	125 (56)	mph (m/sec)			
Operating Temperature	-40	+70	Deg C		

ROHS 3 & REACH compliant: Antenna, cable and connector are all compliant with ROHS 3 and REACH.
