

# Osmo Mobile 7P

## Quick Start Guide

### Getting Started

1. Charge Osmo Mobile 7P as shown. Connect a USB adapter (not included) to the charging port using the power cable.

2. Unfold the gimbal as shown. Osmo Mobile 7P will power on automatically once unfolded.

3. Stretch the magnetic phone clamp to adapt to the mobile phone width. Attach the magnetic phone clamp in the center of the phone.

4. Align the marks on the phone clamp and the phone clamp mounting plate. Attach the mobile phone to Osmo Mobile 7P.

## Connecting to the DJI Mimo App

1. Power on Osmo Mobile 7P.
2. Enable Bluetooth on the mobile phone and connect to Osmo Mobile 7P in DJI Mimo. Make sure that mobile phone is connected to the internet.
3. Users are required to allow access to certain information when using DJI Mimo for the first time. The exact information will be listed in the prompt. An internet connection is required. Osmo Mobile 7P will be activated after authorization and the app will enter the camera view.

# Built-in Extension Rod and Tripod

The gimbal features a built-in extension rod that can be extended for selfies, which allows more objects to be captured in the frame.

The gimbal also features a built-in tripod that can be used to temporarily place Osmo Mobile 7P on a windless, stable, and flat surface.
