Osmo Nano

Model: OD001

FCC ID: 2ANDR-OD00125

IC: 23060-OD00125

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

B. Access to the required information on the e-label

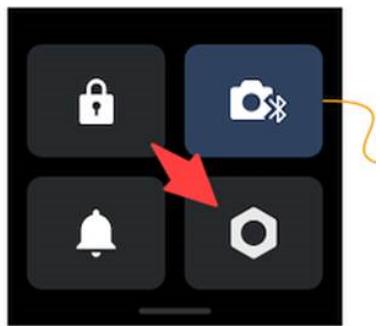

1. Users are able to access the information in no more than three steps in a device's menu. The actual steps are:

In manual:

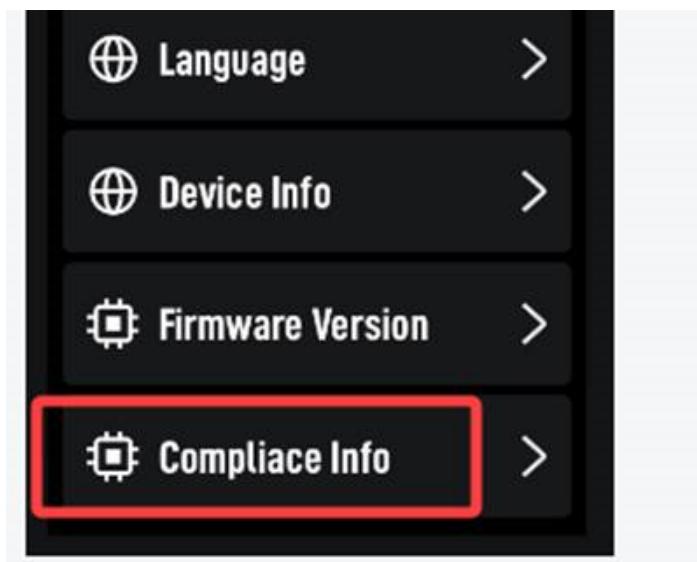

To view the full compliance information, slide down on the camera view, tap the settings icon, and scroll through to select Compliance Info.

The step for display the e-label:

1. User clicks on Settings entry

STEP2: User clicks on about entry

STEP3: User clicks on compliance info entry

Osmo Nano

Model: OD001

FCC ID: 2ANDR-OD00125

IC: **23060-OD00125**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

No special access codes or permissions are required to go through the above steps beyond entering a user-defined password to protect against unauthorized access to the device.

2. The information is stored on the device, no special accessories or supplemental plug-ins (e.g., a SIM/USIM card) are required to access the information.

Devices do not require special accessories or supplemental plug-ins to access the information.

3. Users are provided specific instructions on how to access the information.

The information is provided in the User manual. A copy is attached as an exhibit document Info_K5902200_02AB_UserGuide_optimized.pdf.

C. Labeling for Importation and Purchasing

Products utilizing e-labels are required to have a physical label on the product at the time of importation, marketing and sales. For devices imported in bulk and not packaged individually, a removable adhesive label or, for devices in protective bags, a label on the bags is acceptable for this purpose. Any removable label shall be of a type intended to survive normal shipping and handling and must only be removed by the customer after purchase. For devices imported already in individual packages ready for sale, the information may alternatively be provided on the package. It shall contain:

1. The FCC ID and/or the FCC logo (if applicable); and
2. Any other information required by specific rule to be provided on the surface of the product unless such information is permitted to be included in the User's manual or other packaging inserts.

The FCC ID is printed on the package.

D. Other considerations

1. The above information must be programmed by the responsible party and the information must be secured in such a manner that third-parties cannot modify it.

The e-label information is pre-programmed by the grantee. The user cannot modify the e-label information.

2. All the applicable regulatory information required on the packaging or user instructions must be provided according to the rules even if it is displayed electronically. For example, hearing aid compatibility (HAC) ratings for the phones as specified in 47 C.F.R. § 20.19.

The information required by the applicable FCC rule exists in the user manual.
