arboleaf™
Smart Body
Tape Measure
Quick Start Guide
Model: CF10A

Download the App
Go to the app store on your device (App Store for iOS or Play Store for Android) and search for "arboleaf".

Introduction of Buttons

Retractable button
Power button:
• Short press to power on
• long press for 2 seconds to power off

M button:
• Short press for measurement
• long press for 2 seconds to switch the units of measurement.

Lock button:
Short press to eject the Tape buckle

Connection and use
Open the "arboleaf" App and follow set-up and pairing instructions:
1. Register account in the "arboleaf" App with your email. And you may also login as Guest if you do not want to register.
2. Enable bluetooth on your smart phone:
* For Android users:
- Ensure location is turned ON for Android 6.0 or above.
* For iOS users, iOS 13 requires bluetooth permission:
- Go to settings.
- Scroll down to find the "arboleaf" App.
- Switch on the bluetooth permission for the "arboleaf" App.

How to use

① Turn on the Bluetooth, and open the App, click " + " and " ⌂ " on the measuring page.
② Open the App and short press the tape's **Power Button** to power on, the tape and the App pairs automatically.

back cover

③ Short press the Tape's "M" Button and pull the Tape Buckle to start measuring, or click any "body part" on the APP and then pull the Tape Buckle to measure.
④ Click "Save" to record the data after measurement.
⑤ You can click "Girth record" on the home page to check all the data.

FCC Statement
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
