①

Using Your G.O.A.T. Pet Speaker

※ Charging the battery

1. Insert charging cable into the USB socket, and connect USB plug into a standard 5V/500mA USB power terminal, The LED indicator will turn red.
2. Charging is complete when the red LED indicator turns off, Note about charging: When it's time to recharge the battery, speaker's voice prompt will say the following: "My battery is low."

※ Downloading the G.O.A.T. Pet Speaker App

Operate G.O.A.T. Pet Speaker's features by downloading the G.O.A.T. Pet Speaker app from Apple's app store or from Google Play. Once the app is downloaded, create a profile for your pet, use the calendar function, manage selfies, or of course, give your pet a "voice" by recording or typing what you want your pet to say.

※ Using the clip/lanyard options

1. The built-in clip on back of speaker has been carefully designed with active pets in mind. With pet's collar removed from pet,

②

slide the speaker's clip onto the pet's collar (do not pull clip to adjust). After clip has been threaded onto collar, fasten collar to pet.

2. To use lanyard option, simply loop included lanyard through hole in speaker's ear, and then attach securely to your wrist.

※ Bluetooth pairing and use

1. Activate your device's Bluetooth function,
2. Turn on speaker by pressing the power button for 1.5 seconds. Speaker will voice prompt with "G.O.A.T. speaker on: Bluetooth searching." The blue LED indicator light will flash quickly.
3. Locate Bluetooth connect name "G.O.A.T. Speaker" from mobile or other device, and click to pair. Once paired, speaker will confirm with the following voice prompt: "G.O.A.T. speaker connected." The blue LED indicator light will flash slowly.
4. For optimum volume control, use mobile or other device to increase/decrease volume levels. When the speaker has reached maximum volume, voice prompt will say the following: "Max volume—please be cautious of sensitive ears." NOTE: This voice prompt warning is only supported by iPhone devices.

③

5. When speaker function is in use, a quick press to the power button will pause/resume sound.

※ Receiving an incoming call

To answer an incoming call from your mobile device or to disconnect from an ongoing call, make a quick press to the power button. Calls can also be answered by using your mobile device, and audio will stream through the speaker.

※ Pairing the selfie remote button

1. To switch to selfie mode, make two quick presses to speaker's power button when speaker is on, Speaker will voice prompt with "G.O.A.T. selfie mode connecting." The red LED indicator light will flash quickly. Locate Bluetooth connect name "G.O.A.T. Selfie" from mobile or other device, and click to pair, The red LED indicator light will flash slowly. Note: When used again on the same device, speaker will automatically connect to selfie mode when two quick presses are made to power button.
2. Once paired, speaker will confirm with the following voice prompt: "Selfie connected—push my button when ready." To take a selfie, make a quick press to the power button on speaker when smartphone's camera is open.

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by G.O.A.T. Pet Products may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

3. To return to G.O.A.T. speaker mode, make two quick presses to speaker's power button. The blue LED indicator light will flash, and a voice prompt confirmation will sound the following: "G.O.A.T. speaker on: Bluetooth searching."

NOTE: If your keyboard function won't work on your mobile or other device, be certain to disconnect from selfie mode by returning to speaker mode (double press power button.)

※ Turning off speaker

Turn off speaker by pressing the power button for about 3 seconds. Speaker will voice prompt with "bye, bye" when disconnecting. Speaker will automatically power off after being disconnected for 10 minutes.

※ LED light

With the speaker powered on, press and hold the power button for 1 second to open the LED light function. To turn off, press and hold the power button for 1 second.

※ Water resistance

Speaker is water resistant and complies with standards of water

⑤

resistant IPX4. Should the speaker's "holes" come into contact with water, turn the speaker upside down to dry.

※ Troubleshooting

1. If the Bluetooth doesn't pair, try refreshing the Bluetooth connection. Then, attempt to re-pair.
2. If speaker doesn't power after charging, it's possible the power adapter is broken. Replace the power supply, and attempt to power again.
3. If your keyboard function on your mobile or other device doesn't work, be sure to disconnect from selfie mode by returning to speaker mode (double press power button on speaker).
4. If selfie function doesn't operate, check to see that mobile device is paired with "G.O.A.T. Selfie" (and not another Bluetooth connection).
5. If you can't take a photo using the Android system, open "Settings" then "Camera," Next, set "Volume key" to "Shutter." With iOS system, simply try resetting the Bluetooth connection.
6. Having trouble streaming music? Try resetting the Bluetooth function.

⑥

WARNING

Before using, read all instructions carefully. Do not place speaker in extremely hot, cold, dusty or humid environments, Speaker is splash resistant.

To properly attach the speaker's clip to pet's collar, first remove collar from pet. Next, slide clip onto collar (do not pull clip to adjust). After, refasten collar (with speaker attached) to pet.

Please handle the speaker's rubber USB socket with care. Note: Pulling on the rubber USB socket with excessive force may cause damage.

The sound quality of this product is amazing, and pet ears can be sensitive. Use with pet's comfort in mind. For instance, your pet may prefer only calming/soothing music.

Not intended for small children. Children should operate only under adult supervision. Pets and children should never be left alone with speaker, and speaker should never be within reach of pets or children without adult supervision.
