

FCC1

The image shows a black, cylindrical electronic device, possibly a sensor or a small antenna. It has a textured, woven appearance. A white label with the text "FCC1" is attached to the upper part of the cylinder. The device has a wider, flange-like section in the middle with a small, circular, recessed area in the center. The bottom of the device is narrower and has a series of horizontal ridges. The device is placed on a light-colored, textured surface.
