

ENG Features

Stretching and Rotating Operations

1. Stretching: The magnetic ring part can be stretched with a range of up to 35mm.

2. Rotating: The lamp head can rotate 360° horizontally and fold 180° vertically.

Basic Settings

Power On/Off

- 1. Power On: Short press the power switch to turn on the light.
- 2. Power Off: Short press the power switch to turn off the light.

Bluetooth Connection

- 1. Enable Bluetooth on your phone or other electronic device.
- 2. Open the Harlowe App.
- 3. Long press the light's BOOST button for 1.5 seconds to pair with the App.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.

White Light Mode

1. Brightness Adjustment

- 1) Rotate the dial to adjust brightness.
- 2) Adjustable range: 10% - 100%.
- 3) BOOST mode: Short press the BOOST button to activate 5.5W output for 30 seconds.

2. Color Temperature Adjustment

- 1) Slide the touchpad to adjust color temperature.
- 2) Adjustable range: 2700K - 6500K.

RGBCW Mode

Short press the knob to switch to RGBCW mode.

- 1) Color Adjustment
- 2) Slide the touchpad to adjust color.
- 3) Adjustable colors: 36000.

2. Brightness Adjustment

- 1) Rotate the dial to adjust brightness.
- 2) Adjustable range: 10% - 100%.

Battery Indicator Light Guide

1. When Not Charging

- 1) Green light: Battery level > 70%
- 2) Orange light: Battery level 31% - 70%
- 3) Red light: Battery level 11% - 30%
- 4) Flashing red light: Battery level < 10%, please charge the light promptly using the Type - C charging cable.

2. When Charging

- 1) Red light: Charging in progress.
- 2) Green light: Charging complete.

The device has been evaluated to meet general RF exposure requirement.

WARNINGS

- Please thoroughly read the manual prior to operating the product and operate in strict accordance with the manual.
- Don't disassemble the product by yourself. If the product requires repair, contact our maintenance personnel.
- Product failures caused by unauthorized disassembly are not covered by warranty, and will be chargeable.
- Don't touch the heat generating parts of the product during operation to avoid scalding injury.
- The power must be switched off during set-up and break down of the product.
- Don't submerge the product in water or other liquid/s to avoid safety risk and product failure.
- Allow the product to properly cool after each use before storage.
- The product contains batteries. Don't store the batteries in hot environments and keep them away from fire.
- Only use the originally supplied accessories to avoid product failure/s.

Product Specifications

Sol 5 Spectra

Sol 5 Spectra	
Power (Standard)	3W
Power (Boost)	5.5W
Luminous Flux (2700K)	210lm (Standard Mode) 410lm (Boost Mode)
Luminous Flux (6500K)	220lm (Standard Mode) 440lm (Boost Mode)
Input	AC 100-240V, 50-60Hz DC 5V
Battery	3.7V 1000mAh, 3.7Wh
CRI	96
TLCI	96
CCT	2700-6500K
Dimming	10-100%
RGBCW	36000 Colors Color Gamut: 0-360 degree Saturation: 100 Intensity: 0-100
Wireless Method	Bluetooth
Wireless Operating Range	20m / 65.6ft
Operating Temperature	-10~40°C / 14~104°F
Dimension (Folded)	81x68x32mm / 3.19x2.68x1.26in
Dimension (Unfolded)	189x68x25mm / 7.44x2.68x0.98in
Net Weight	155g/0.34lbs
