How to charge

While charging the ear bud's red light is on.

When fully charged the ear bud's blue light will be lit for 2 minutes and then go out.

Case charging the red light is on. When fully charged the red will go off.

This charging case supports charging and discharging at the same time.

How to wear

1. Identify the Left and Right earphones. Look above the ear bud for an R or L.
2. Place the earphone with the ear bud in your ear canal and rotate forward until comfortable.

How to pair

1. Short press the button on both ear buds at the same time. You will hear "Power on" and then saying "Your device is connected".

2. Find "HV-316T" on your phone or tablet wireless list. Click it and you will hear "Your device is connected". Now your device is connected successfully. You can play music or make a phone call.
3. If asked a passcode, enter 0000 and the earphones will then connect to your devices.
4. The next time you turn on the ear buds, they will automatically search for and attempt to connect to the last paired device.

Dial/ Answering a call

Answering a call

When a call comes in, you will hear "a beeping" on your left ear bud. Now press the button on either ear bud to answer a call.

Hang up a Call

Short press the button on either ear bud to hang up the call.

There is a low battery alert when the battery is low.

Caution:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
