Request for Confidentiality		
Date:2017-09-1	8	
Subject: Confidentiality Request for: <u>2ANO4-25WBTSA</u>		
Pursuant to FCC 47 CR subject FCC application		SP-100, Section 9.4, the applicant requests that a part of the
Type of C Short Term	Permanent	Exhibit Block Diagrams External Photos Internal Photos Operation Description/Theory of Operation Parts List & Placement/BOM Tune-Up Procedure Schematics Test Setup Photos User's Manual
Guangdong Kangrong High-tech New Material Co., Ltd has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.		
Permanent Confidentiality: The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.		
period of <u>(specify n</u> Authorization and prior or release of the produc information regarding t	the exhibits selected above as shumber of days not to exceed 180 to marketing. This is to avoid to the public. Applicant is also the product or the product is made	nort term confidential be withheld from public view for a 0^2 days from the date of the Grant of Equipment premature release of sensitive information prior to marketing o aware that they are responsible to notify ACB in the event de available to the public. ACB will then release the o FCC Public Notice DA 04-1705.
	nds that until such time that IC d	listinguishes between Short Term and Permanent II simply be marked Confidential when submitted to IC.

¹ - The asterisked items (*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."

² - Please refer to http://acbcert.com/documents/misc-docs/Memo-Short-Term-Vs-Standard-Confidentiality.pdf for complete details.

³ - Must be signed by applicant contact given for applicant on the FCC site, or by the authorized agent if an appropriate
