

30x60mm

TUBE AMPLIFIER WITH BLUETOOTH STEREO

MODEL: Cab-AMP-T100

Frequency Response ($\pm 3\text{dB}$):

25Hz - 20kHz

RMS Output Power:

2x25W

Input Impedance(kilohm):

47

Input Sensitivity:

300mV

Output Impedence (ohm):

4-8

FCC ID: 2AN05AMP

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
