Equipment Declaration

Nordic Semiconductor ASA declares that the product:

Product Name: Nordic Thingy:53

Brand Name: Nordic Semiconductor

Model: Thingy:53

Contains hardware elements capable of programming through a Serial Wire Debug (SWD) connector/port, serial communication over 4-pin JST connector/port and an advanced debugging through a TRACE debug port.

These features are disabled in the factory programmed firmware that the device is shipped with.

The product only supports communication through the USB-C port with its factory programmed firmware.

Date/Place: 17.06.2022, Oslo
