

Remote control

- 1 Player mode selection
- 2 back/REW, Under disk or SD/MMC card playing state, press the key to switch to previous program, hold the key for over 2 seconds to seconds select program quickly backward, the player may starting from current program quickly select program and 1 programs may be searched every 0.2 second.
- 3 Next/FF Under U disk or SD/MMC card playing state, press the key to switch to Next program: hold the key for over 2 seconds to seconds to select program quickly forward, the player may starting from current program quickly select program and 1 programs may be searched every 0.2second.
- 4 Under SD/MMC card playing state, insert the U disk, the player automatically switches to U disk playing state Under U disk playing state, insert the SD/MMC card, the player automatically switches to SD/MMC card playing state.
- 5 Press the key to increase the volume
- 6 Press the key to drop the volume
- 7 Press the key to choose a variety of music effect
- 8 Repeat, Click to repeat a song, double click, repeat all of the songs
- 9 Automatic frequency

With digital display USING INSTRUCTIONS

HY-V9S
HY-V10

Machine Characteristics

- 1 can play U disk SD/MMC card for music and FM stereo radio, support MP3 music format. (USB+SD+FM)
- 2 Selected high-power four-channel professional power amplifier integrated circuits, minimal distortion, strong power
- 3 Pre-professional level input operational amplifier IC for circuit design, sound, Transparent, bright.
- 4 Filtering and anti-large-capacity power circuit
- 5 DSP sound field pattern of the four.
- 6 Tow main channel output

Main Technical Parameters

- 1 Input voltage DC 12V
- 2 Frequency response:20Hz-20kHz
- 3 Output power :RMS 20W+20W 1KHz
- 4 Harmonic distortion:<0.05% 4W 1KHz
- 5 SNR: 85dB
- 6 High control: 12dB ± 10KHz
- 7 Bass control: 12dB ± 100Hz
- 8 The signal level: 220MV 47K
- 9 3 Reader, U-disk format: MP3 FM
- 10 4 FM FREQUENCY RANG---87.5MHz-108.0MHz

Key Fuctions

- 1 VOLUME: volume adjusting and host switch
- 2 BASS: bass tuning
- 3 TREBLE: High adjustment
- 4 MODE: Play mode selection,
- 5 Clickn play U disk's song
- 6 Double click played SD's song
- 7 Three click played FM stereo radio
- 8 PLAY/SCAN: The play/pause/FM automatically adjustable.
- 9 Playing modes:short pause, click this button again according to play. Short FM mode, Click this button for FM automatically adjustable.
- 10 NEXT:next(in the play)
- 11 PREV:back(in the play)

Warning Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
