FCC ID: 2AKRW-01042017

To Whom It may concern,

We, Nytec Inc, hereby declare that the labelling area on our device is considered too small to mark on the device.

According the section of FCC KDB 784748D1:

If the device is unquestionably too small for the FCC ID to be readable (smaller than 4-6 points), the FCC ID may be placed in the user manual. However, it must be determined that the device itself is too small – the label area allocated to the FCC ID may not be reduced because of over crowded identification of other product and regulatory information.

We are providing you the justification letter with photos for placing the FCC ID in the manual as below:

Sincerely,  
Nytec Inc
