To whom it may concern,

We, Global Experience Innovators, Inc., hereby declare that the labelling area on our device is considered too small to mark on the device.

According the section of FCC KDB 784748D1:

If the device is unquestionably too small for the FCC ID to be readable (smaller than 4-6 points), the FCC ID may be placed in the user manual. However, it must be determined that the device itself is too small – the label area allocated to the FCC ID may not be reduced because of overcrowded identification of other product and regulatory information.

We are providing you the justification letter with photos for placing the FCC ID in the manual as below:

**Global Experience Innovators, Inc. is a wholly owned subsidiary of Carnival Corporation. Any reference to Carnival Corporation is in actuality a reference to Global Experience Innovators, Inc.**
