Frequency response range:20~20KHz
bluetooth distance:10M
battery capacity 380mAh
Working voltage: 4.2V
Charging parameters: 5V 300MA
Charging time: about 2 hours
Playing time: about 2hours
Size: 73*67*144MM

Instructions:

1. Take out the products and check whether the product is complete (User Manual, charging cable)
2. Touch Mode: Long press the power button  to enter the touch mode. Hearing "HELLO Merry Christmas" after a prompt tone sounds, touching the nose and facial whiskers can play wonderful music. Press the Next key  to change songs.
3. Bluetooth Mode: Long press the power button  in the shutdown state. After the prompt tone sounds, short press the power button  again to enter the Bluetooth mode (Bluetooth name: ROLY-POLY KT08). The blue light flashes when pairing via Bluetooth and goes off after successful pairing. In the Bluetooth mode, songs are played, and the colored mood light flashes with the rhythm. Press the Next key to turn on or off the mood light
4. Intelligent Power Saving: in Touch and Bluetooth modes, the device will automatically shut down in ten minutes when it is in standby mode (if the device is charging, it will not automatically shut down and need to manually shut down)

Trouble Shooting

Unable to boot	Check the battery for electricity, When charging, the red indicator lights up and the full red light goes out.
The harps are not very sensitive	The sensitivity of the touch is affected by the current magnetic field under charge.
The bluetooth playback appears in carton	Whether it is beyond the effective transmission range. Or between the stereo and the equipment.
Bluetooth playback is small or distorted	The battery is too low. Please charge it promptly
Bluetooth cannot connect	Check if the stereo is in search or restart. There are too many bluetooth devices in the vicinity, causing a search problem and closing other bluetooth devices to disconnect from the audio connection.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
