Subject: Request for a Class II Permissive Change

FCC ID: **2ANWR-VISCM4**

Grant Date(s): **03/07/2025**

Pursuant to CFR47 §2.1043, the Grantee hereby requests a Class II Permissive Change for the above identified device.

Following changes apply to the modified device:

The modular approved transmitter is integrated into a dedicated host device (Wöhler VIS 7 HD Video-Inspection System) manufactured by the Grantee. Only for the usage in this host device the entire Bluetooth and 5 GHz UNII functionalities are disabled by firmware, that cannot be re-activated by the end-user. A new integrated antenna (Wi-Fi Dual Band Antenna / W2.4-5P-U / Inventek Systems) is used in this host device, that required reduced power settings of the remaining 2.4 GHz WLAN operation modes.

There are no changes made to the transmitter circuitry and the above listed changes result in the same RF characteristics as in the original filing - therefore the not repeated test results continue to be representative of and applicable also to this modified device.

Sincerely,

Authorized Agent
