FEDERAL COMMUNICATIONS COMMISSION STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

You are cautioned that any change or modifications to the equipment not expressly approve by the party responsible for compliance could void your authority to operate such equipment.

GoPay

K50 Bluetooth Mobile Reader

FCCID:2ANZ7-K50

Getting Started

1. Download and install the GoPay Bluetooth Client Application, register and login to the GoPay Client on your mobile device.
2. Press the power button for 2 seconds; an audible beep indicates that the reader has been powered on and will flash blue light.
3. Enable Bluetooth from your mobile settings, execute the GoPay Bluetooth Client Application, and it will perform an automatic GoPay Bluetooth Reader ID (Serial Number). Searching and pairing: **(First pairing requires a pairing PIN entry of 1234 as the PIN)**. Upon successful pairing, the blue light will remain lit.
4. Press [Start Transaction] and follow the instructions to complete a transaction.
5. Transaction State:
   a. Transaction Approval results in a single "Beep"
   b. Transaction Decline results in a "Beep–Beep"
6. Low Power State: Reader at low power continuously sounds a "Beep–Beep" every second.
7. Charging State:
   a. Charging via USB cable: Red light flashes
   b. Complete Charging: Red light remains on
8. Bluetooth Connection:
   a. Bluetooth disconnected: Blue light flashes
   b. Bluetooth connected: Blue light remains on
9. Sleep: GoPay Bluetooth Card Reader automatically enters sleep mode after idling for 90 seconds.

Note:

1. Using the MSR: Swipe the magnetic stripe card with the MagStripe facing the reader and swipe quickly with constant speed (MSR reader supports swipe from both directions).
2. Using the IC Card Reader: Insert the IC Card with the chip facing towards you. DO NOT remove the card before the transaction is completed.

GoPay Card Reader Specification

1. Supports IC Card; Support 2–track or 3–track MagStripe Card (Bi–directional swiping).
2. Equipped with two–channel Bluetooth module, iOS 4.0 or above; Android 2.1 or above.
