Thank you for choosing Soundcue® as your choice of audio powerhouse. To ensure correct operation and longevity of your Soundcue® Bluetooth® AMMO speaker, please read this user manual carefully before use.

Lia The Exclusive Voice of Soundcue | Tones by **Bandbasher Inc.**

Important Safety Instructions

-Charge the speaker to full capacity when using for the first time.
- Keep speaker away from any source of heat.
Charge speaker for only the required time, excessive prolonged charging can damage the battery lifetime.
- When the battery level is low, the indicator light will flash and the voice prompt "out of battery" will let you know, please charge battery in time. Over killing battery affects battery longevity.
- If speaker will not be used for a long time and stored, please recharge at least once a month, in order to prevent the lithium battery from excessive consumption.
-Adjust the volume to appropriate level to avoid disturbing others.

Specifications:

Driver: (76mm 4Ω Bass) x 2 + (35mm 6Ω high frequency) x 2 + passive radiator x 2

13) Charging: When the speaker has low battery level, the speaker will prompt "out of battery", Please charge the battery via a USB adaptor. When fully charged, the four battery level indicator lights will light up
Please Note: Only use good quality 2A adaptor to charge the speaker. We suggest to use the adaptor specification at 5V/2A
When the speaker is at low battery level, please charge the speaker immediately
The speaker can be charged by different charging current (500mA, 1A, 2A), if using the computer to charge the speaker, as the current is only 500 mA, the charging time will be longer.

FCC Caution.

(1)§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Changes or modification warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.
