

FCC ID: 2A02D-RC603-MG2

### Justification of Label Location

Regarding: Label Location of Bluetooth Remote Control, FCC ID: 2A02D-RC603-MG2

The label of the equipment will not be visible at the time of purchase on the exterior of the equipment enclosure. Per KDB 784748 D01 Labelling Part 15 &18 Guidelines v08, we use an alternative solution to place the FCC label on the device, all requirements as below are satisfied:

	Requirements	Justification
1	The device is handheld;	Yes, it's a controller.
2	The FCC identifier is visible at the time of purchase. The FCC ID on the box, or additional documentation directing the user where to find the FCC label, also satisfies this requirement;	Instruction to user where to find the FCC label is properly addressed in the User Manual.
3	The user accessible area must not require any special tools for access, and the FCC label must not be placed on a removable part;	It's in the battery compartment back cover of which could be easily opened without any special tools.
