Product Warranty

If the product malfunctions, please contact the place of purchase or 82-2-554-0517.

In the case of 3pigs Co., Ltd., we guarantee the following products in accordance with the Consumer Dispute Resolution Standards (Fair Trade Commission Notice). If the product malfunctions, please contact the place of purchase or 82-2-554-0517

If the replacement part fails within one year from the date of repair, it will be repaired free of charge.

If repair is performed free of charge within the warranty period,

You can use the same quality and quality of a ripper part * as new or new parts, based on consumer dispute resolution standards. We will notify you within 7 days from the date of the claim, and the damage compensation will be resolved within 14 days from the notification date.

* Ripper parts are parts that have been recovered from existing products and have been improved in performance and quality in the same way as new parts through a certain process.

Free service

In the event of a failure occurring under normal use within the warranty period, you will be entitled to free service and the repairs will be carried out on a new or replacement part corresponding to the new part. (Non-malfunctioning, negligence will be excluded) When using this product for business purposes, the warranty period will be shortened to half (6 months).

Paid service

If the product is not in trouble, requesting service may result in a charge regardless of the warranty period.

Please check the manual first.

1. In case of malfunction due to consumer error

In case of malfunction due to carelessness (flooding, breakage, damage)

If the consumer tampered with the product

In case of trouble due to use of unspecified consumables or accessories

If a malfunction occurs due to failure to observe the "Precautions" in the instruction manual

2. In other cases

If a failure occurs due to natural disaster (fire, salt, flood, lightning, etc.)

Consumable parts have reached end of life.

In the following cases, the service may be denied.

Modifications, modifications, reproductions, or use of imitation parts

If the customer requests repairs for parts that have not yet been returned.

If the same product is repeatedly requested to be repaired, it is estimated that the repair request is other than repair.

If the part is replaced with a part other than the part at the time of purchase (or after service)

FCC Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Compliance Information : This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation
