Date: 07/16/2019

FCC ID: 2AO3N-TH87P6EROZ

Subject: Declaration of compliance to the requirements of §15.121

We declare that, this scanning receiver is incapable of operating (tuning), or readily being altered by the users to operate, within the frequency bands allocated to the Cellular Radiotelephone Service in part 22 of this chapter (cellular telephone bands).

This device will not be able to receive transmissions in the cellular telephone bands by means of clipping the leads of, or installing, a simple component such as a diode, resistor or jumper wire; replacing a plug-in semiconductor chip; or programming a semiconductor chip using special access codes or an external device, such as a personal computer.

This device is also incapable of converting digital cellular communication transmissions to analog voice audio.

This device is designed so that the tuning, control and filtering circuitry is inaccessible.

Any attempts to modify the equipment to receive transmissions from the Cellular Radiotelephone Service will render the receiver inoperable.

This scanning receiver rejects any signals from the Cellular Radiotelephone Service frequency bands that are 38 dB or lower based upon a 12 dB SINAD measurement.

We are aware that the modification of this device to receive transmissions from Cellular Radiotelephone Service frequency bands will be considered to constitute manufacture of such equipment. This includes any individual, individuals, entity or organization that modifies one or more scanners. Any modification to receive transmissions from the Cellular Radiotelephone Service frequency bands voids the certification of the scanning receiver, regardless of the date of manufacture of the original unit.

If you have any questions, please feel free to contact me.

Thank you.

Sincerely,

Robin H. Jaeger, Hardware Engineer

A blue ink handwritten signature of Robin H. Jaeger, which is written over the Dedrone logo and the company address.The logo for Dedrone, featuring a red square icon with a white 'X' inside, followed by the word "Dedrone" in blue.
