Centimetre charging cable

User manual

Product specifications:

Model number :BST Earbuds 1

Speaker impedance :32Q

Headset input :5V 150mA

Charger input :5V 500mA

Charger output power :5V 45mA

Bluetooth version :5.2

Working distance :10 meters

Bluetooth protocol :BLE/HFP/A2DP/AVRCP

Important Safety Instructions

1. The appropriate temperature for products and accessories is - 10~60 °C, and the charging temperature is - 10~60 °C.

2. Maximum power within the operating frequency range
The equipment operates in frequency band and maximum power (E.I.R.P).

2402MHz–2480MHz : 9.73dBm

2412MHz–2472MHz : 17.83dBm

3. RED EU Compliance

XXXX specially declares that XXXX of this equipment complies with the basic requirements of Directive 2014/53/EU and other relevant regulations.

For the qualification statement, please visit www.XX.com/certification.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device complies with Industry Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions:

this device may not cause interference, and

(2) this device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil est conforme avec Industrie Canada RSS exemptes de licence standard(s).

Son fonctionnement est soumis aux deux conditions suivantes:

(1) cet appareil ne peut pas provoquer d'interférences, et

(2) cet appareil doit accepter toute interférence, y compris celles pouvant causer un mauvais fonctionnement de l'appareil.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
