TO THE **FUTURE** OF TELEVISION

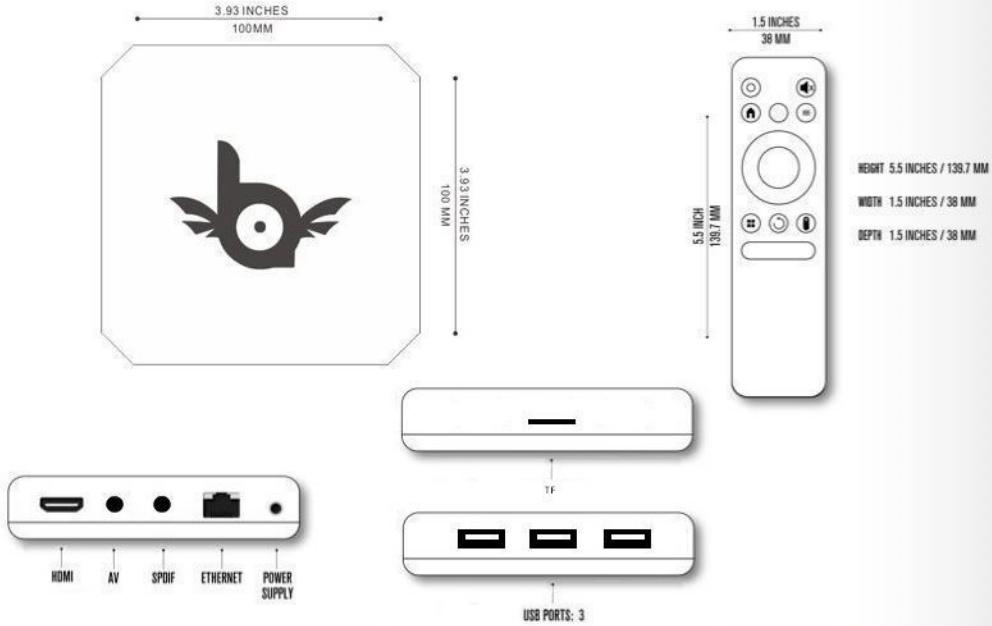

btv**i**3**se**

Each living room and family sharing our technology resonates our commitment to excellence.

We strive to improve people's quality of life with premium products manufactured by Legacy Eufonico

Beyond Simple ▪ Beyond Fun

What's in the box?

- 1 BTVi3se
- 1 Remote Control
- 1 HDMI Cable
- 1 Power Adapter/Converter
- 1 USB Cable

Let's Get Started

STEP 1: CONNECT YOUR BTVi3

- a. Connect the HDMI cable to your BTVi3se
Connect the other end to your TV.

- b. Connect the power adapter to the BTVi3se
Connect the power adapter to an electric outlet.

Electrical Outlet

STEP 2: CONNECT TO THE INTERNET VIA WI-FI OR ETHERNET

WI-FI:

Select the Settings button located
on the BTVi3se Home screen

ETHERNET:

Connect an Ethernet Cable from
BTVi3se to the modem or router.

- b. Select NETWORK
- c. Locate your wi-fi network:
Select your network and enter your
wi-fi password.

Helpful Tips

The BTVi3se should be placed as close to the Internet Router as possible. The further away the BTVi3se from the Internet modem, the weaker the signal will become.

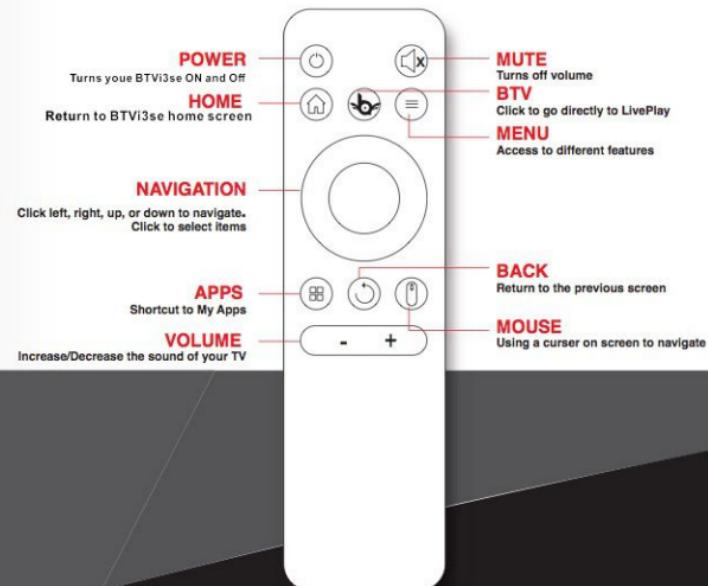

Connect to Ethernet if possible. Connecting to the Ethernet will give you the best signal strength.

*Remember to verify which HDMI input you are using on your TV

Standard Remote

The Standard Remote is designed to be user friendly so you can have the best Experience when watching TV.

The remote uses infrared, so be sure to have a direct line of sight to your BTVi3se

The BTVi3se Home Screen / Navigation Buttons

LIVEPLAY

Click LIVEPLAY to search for movies, resources and VIP experience

Watch LD Eufonico's radio show

Using Miracast or AirPlay

Use Miracast from your Android Device or AirPlay from your Apple device to view the screen of your device directly to the BTVi3se and share it with others in the room.

Both Android or Apple device needs to be connected to the same network as the BTVi3se

View an Android device on the BTVi3se?

On the Android device, swipe down from the top of the screen to open Settings. Tap Screen Mirroring then select BTV in the list of Android devices.

View an Apple device on the BTVi3se?

On the Apple device, swipe up from the bottom of the screen to open Control Center. Tap AirPlay  then select BTV in the list of AirPlay devices.

FAQs

Can I download anything to the box? If yes, what can I download?

The BTVi3 will allow some apps to be downloaded. The Apps that are download-able will be located under App Market. Apps that are not within App Market will effect your BTVi3se's condition.

How do I download the latest ROM?

To download latest ROM go to: <http://www.myteamvideos.com/download.html>

What not to do when registering?

User names do not accept special characters and space bars, please avoid them if you wish to access BTVi3se content.

Why is it when I click on a stream/feed it doesn't work?

We are not a provider of any media content and can't guarantee any media to work at any time however, we find that the majority of all streams are working.

Why can't I access my Back Office? I have even tried changing my password

If you cannot log into your Back Office no matter what, it most likely is that your account is inactive due to missed payments, to reinstate your account please call our support hot line at (949)-988-9000

Can I use the box on more than one TV?

Yes, with a HDMI splitter the image from any one model of BTVi3se may be duplicated to multiple screens. However only one controller can work and all screens will project the same content.

Where can I use my BTVi3se?

You may use your BTVi3se streaming box anywhere as long as there is an HDMI connection made to a display and power.

What is the recommend Internet speed for optimal performance?

To test your Internet speed, go into Apps - Speed-test. At Legacy Direct we recommend a speed of at least 30 mbps to stream 1080p reliably. The faster the speed, the better the performance.

Why doesn't any of my shows stream smoothly?

Slow Internet speed.

Troubleshooting

- Make sure your TV is turned on.
- Make sure the connectors on the cables between your BTVi3se player and your TV are pushed completely in.
- Make sure the video input on your TV is set to match the HDMI used with the Most TVs have an input button on the remote to change video inputs.
- Make sure the power cable for the BTVi3se player is connected to the BTVi3se player on one end and to a working power source on the other end. If the BTVi3se player is powered, the light on the front of the BTVi3se will be blue.
- Adjust the location of the BTVi3se closer to the modem or router.
- Do not place the BTVi3se player in an enclosed cabinet; it may interfere with the wireless signal. Connecting to the Ethernet will give you the best signal strength.
- Make sure you select the correct Network name and enter the correct password. Remember that the password is case sensitive.
- Reset your Internet Modem by disconnecting the power cord for 30 seconds, and then re-connecting the power cord back to the modem.
- Restart your BTVi3se Player by disconnecting the power cord from your BTVi3se for 3 seconds, and then re-connecting the power cord back to the

Federal Communication Commission (FCC) Radiation Exposure Statement When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements

FCC statements:

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE:

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected

Consult the dealer or an experienced radio/TV technician for help

IC Compliance statement This device complies with Industry Canada licence-exempt Rss standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.
