

Lingo

Model: FYQ-I

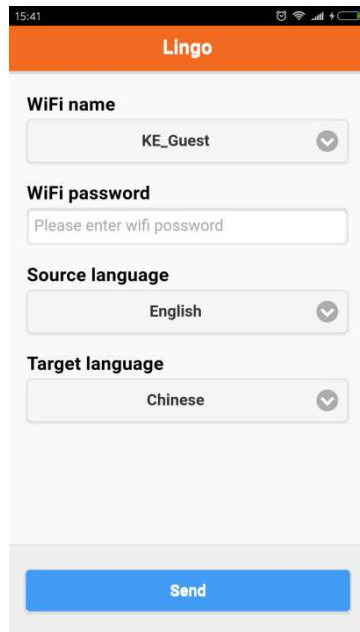

User's Guide

APPEARANCE:

GETTING STARTED:

1. Open the box and take out the LINGO, and charge the LINGO until blue light is on.
2. Now install the App to your mobile device:
 - i. IOS: Open the App Store and search to install “Lingo Saturn Tech”
 - ii. Android: Open the Play Store and search to install “Lingo Saturn Tech”
3. After the installation is completed, the Lingo Saturn Tech App will appear on your mobile device.
 - 1) Initial first time set up: Press on/off button until the RED light is on, and wait for about a minute until you see both BLUE and RED lights flash repeatedly. Then open the LINGO app and choose the WiFi network and enter the password. Then select your “Source Language” and “Target Language”. Press “SEND” and you will hear a dialing tone in a few seconds. Once connected, the “Green” Light will turn on solid, LINGO is now ready to use.
 - 2) After the initial set up is completed the first time, you will NOT need to set up every time you turn on LINGO.

4. When you turn on the device, the “Red” light will turn on solid, wait for about a minute and the “Green” light will turn on solid automatically

5. Primary User: Tap once on the “Source Language” button and the light will turn “Blue”, speak your source language and when done the light will turn “Green” again. LINGO will translate to the preset target language.
6. Receiver User: Tap once on the “Target Language” button and the light will turn “Blue”, speak in the preset target language and when done the light will turn “Green” again. LINGO will translated to the preset source language.

FCC Certification Information:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

FCC Applicant: Saturn Technology Group, LLC.
2664-B Saturn St., Brea, Ca. 92821

RF Exposure Information (SAR)

This device has been designed and manufactured to comply with the limits for exposure to RF energy set by the Federal Communications Commission (FCC) of the United States and other countries.

The exposure standards for wireless devices employ a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC/IC is 1.6W/kg averaged over 1 gram of tissue. The SAR limit recommended by The Council of the European Union is 2.0W/kg averaged over any 10 grams of tissue. The highest reported SAR value are **0.926 mW/g** for body.

The FCC have granted an Equipment Authorization for this device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this device is on file with the FCC, and can be found under the Display Grant section of www.fcc.gov/oet/ea/fccid after searching on FCC ID: 2AOA5CCCC0217002.

This device is in compliance with SAR for general population/uncontrolled exposure limits in ANSI/IEEE C95.1-1999 and has been tested in accordance with the measurement methods and procedures specified in KDB 865664 D01.
