

**EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**

|                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component<br/>View2</div> |  A photograph of a blue printed circuit board (PCB) component, labeled 'View2', placed on a blue textured surface. The component is irregularly shaped with a red rectangular component on the left. It features several surface components including a small black chip labeled 'SCX', a silver component labeled 'SD', and a small circular component labeled 'TX'. There are also labels 'VDD' and 'DNC' near the bottom right. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters from 0 to 100. |
| <div>Solder<br/>Board-Component<br/>View3</div> |  A photograph of the same blue PCB component, labeled 'View3', showing the underside. It features a large central integrated circuit (IC) with numerous pins, several smaller surface components, and a red rectangular component on the left. Text on the board includes 'GM-WD411-15W-V1.3' and '2021-5-19'. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters from 0 to 50.                                                                                                                     |

|                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component<br/>View4</div> |  <p>A photograph of a small, blue, irregularly shaped printed circuit board (PCB) component. The board is positioned on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm. The PCB has several components soldered to it, including a red rectangular component on the right side. Labels on the board include 'X1', 'Q10', 'VDS', 'GND', and 'XCS'.</p>                                                                                                                       |
| <div>Solder<br/>Board-Component<br/>View5</div> |  <p>A photograph of a larger, rectangular blue PCB component. The board is positioned on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm. The PCB has several components soldered to it, including two white cylindrical components in the center. Labels on the board include 'GW-W03T-DC-V1.2', '2023-05-10', and '407'. Two sets of multi-colored wires (red, green, blue, black) are connected to the board, and a gold-colored connector is visible at the bottom.</p> |

|                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|---------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Solder<br/>Board-Component<br/>View6</p> |  <p>A photograph of a blue printed circuit board (PCB) component, likely a wireless charger antenna, resting on a blue textured surface. The component features two white cylindrical components, possibly capacitors or inductors, and several multi-colored wires (red, green, black, white) extending from the top. A black ruler with white markings is placed vertically to the left of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).</p>                                                     |
| <p>Antenna View</p>                         |  <p>A photograph showing the internal components of a device, specifically the antenna assembly, resting on a blue textured surface. The assembly includes a black plastic housing, a blue PCB, and two circular pinkish-red components, likely antennas. A red box highlights the top component, with a red line pointing to it from the text "Wireless Charger Antenna". A black ruler with white markings is placed vertically to the left of the assembly, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).</p> |
