FAQS

Questions	Answers
Q1:Can not find the earbuds Bluetooth "X100" on devices.	Need to restore factory defaults. (1) Take the two earbuds out, then close it. (2) In the off state, press earbuds button for 2 seconds to turn on. (3) First double click on the left earbuds, then double click on the right earbuds. (Attention: it should be quickly double click)
Q2: Can not pair earbuds with your devices.	(1) Pick up the earbud, it will power on automatically. (2) Remove All Bluetooths on your device's Bluetooth menu, Reboot the device's Bluetooth, search "X100" and tap to connect.
Q3: The earbuds fail to turn on.	(1) Peel off the plastic pieces from both earbuds. (2) Fully charge the charging case. Then take X100 from the case. (3) If still no work, hold still the earbuds buttons for 4 seconds to check if they work or not.
Q4: The right earbud can not connect with the left earbud.	Please try the following steps： (1) Please remove all Bluetooth devices from the Bluetooth menu. (2) Open the charging case and take out the Right earbud, then take out the Left earbud. (3) Double click quickly the left and right earbuds at the same time. (Attention: They should be double click in five seconds) (4) Confirm the binaural mode by observing the change of the indicator light. (After connected: The right earbud indicator light will flash alternately from blue to red, The left earbud indicator light will turn off)
Q5: The right earbud cuts out and in.	(1) Pair with other devices to check if this issue is caused by X100 earbuds. (2) Please remove all Bluetooth devices from the Bluetooth menu, then restart the phone and Connect again.
Q6: The left earbud is fully charged while left earbud is not full charged yet.	The left earbud is the master earbud, so left earbud will consume a little more electricity than right earbud.
Q7: Other issues?	No bother to return back, feel free to contact us at XXXXXX@XXX.com. We promise you with a satisfied solution.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part

15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.
