KEEP THIS PACKAGE FOR REFERENCE SINCE IT
CONTAINS IMPORTANT INFORMATION

Consumer should read!

- Please take care not to damage any furniture or glass as indoor play.
- Do not play it among crowd or public road to avoid some accident, please choose a safe outdoor site to play.
- Stop playing it immediately when thundering as outdoor play.
- Do not play this car on a wet site or sand lot to avoid some electronic circuit problems.
- Do not fold the antenna rudely, since a broken antenna may cause personal injury.
- Do not drag or pull the wire on car body, since a broken wire will damage car function.
- Do not touch the car wheel with finger or hand to avoid accident.
- Do not run this car toward people.
- When the car or controller lacks of enough power, an obvious slowdown or out of control condition will happen, please replace the batteries.
- If this car is idle for a long time, please take out the batteries, so its durability will be extended.

WARNING:

- If other car with the same frequency is operating nearby, this car will be out of control.
- If any interference caused by other electric wave, this car will be out of control, please change the site or time to play this car.
- This product is designed for running on cement or terrazzo floor only. If running on a lubricous floor, it will be unable to run straightly, or turn over in 180° or run in circles, since the friction between car wheel and the floor is too small.

FCC Compliance Statements

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
