Re: Confidentiality request for:

Product name: Smart Connect with 2AOFP-300101

To Whom It May Concern:

This letter serves as an official request for confidentiality under FCC Rule, 47 CFR Part 0, Subpart C (Specific rule part §0.459).

We have requested that the following attachments: Schematics, Circuit Description, Block diagrams, Operational descriptions, Parts lists and Tune-up procedures required to be submitted with this application is to be withheld from public review.

These documents contain detailed system and equipment description and related information about the product which Anticimex Innovation Center A/S considers being proprietary, confidential and a custom design and otherwise would not release to the general public. Since the design is a basis from which future technological products will evolve, Anticimex Innovation Center A/S considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

Signature of contact person registered with FCC

Peter Hohnen, VP Research & Development
on behalf of Dennis Dupont Hansen, Hardware Program Manager
