

Anticimex Smart Connect

Smart Connect is the gateway for the Smart system. Smart devices are linked wireless with each other creating an uninterrupted grid network.

The product consists of a single master control box, which connects and controls up to 50 Smart devices. The system creates its own wireless network without interfering other existing networks at the site. It forwards information from traps and sensors to WisePlan over the mobile network.

Smart Connect is wall mounted indoors and connected directly to the main 230V electric circuit. In the case of a power failure, the unit has a built-in rechargeable backup battery.

It's ideal for use in food processing and manufacturing plants, pharmaceutical and packaging industries, as well as in and around apartment blocks, hospitals, schools, government properties and many other areas. At any site, that has a need to monitoring pest activities and protect against them entering the building.

Anticimex Smart

Anticimex Smart is an intelligent system that keeps an eye on things you do not want to see. By constantly monitoring and instantly reacting, it prevents costly infestations in an environmentally-friendly way. Add the services traditionally provided by us, and you will get a solution that gives you the best of two worlds –automation and expertise.

1 – Smart Connect collects information from Smart devices.

2 – And forward the information over the mobile network to WisePlan.

Smart Connect

Controls	Electronic control with GPRS data transfer to sms, email and WisePlan. Wireless data transmission with 920 MHz to Smart Catch and Smart Eye.
Installation	Mounted on a wall indoors, where a connection to the main 230V electric circuit is possible. Preferably, located in the middle of the work area or in the technical room.
Power supply	Standard 230 V socket, and back-up battery
Plastic material	PP, Pmma
IP classification	IP 44
Dimensions	L 175 / W 40 / H 179
Weight	0,4 kg
Equipment	Standard Phillips screwdriver and a drill with (concrete) drill Ø 5 mm.
Article no.	300 101
Accessories	300 201 Smart Eye 300 301 Smart Catch SIM card Installation equipment
