FCC ID: 2AOGW610-1003-142

Model: 610-1003-142

Subject: Request for Permanent Confidentiality

We, Oceus Networks, hereby request that the Exhibits/Items listed below be withheld from public inspection in accordance with Sections 0.457(d) and 0.459 of the Commission's Rules. This is due to the following reasons:

The Xiphos® Micro is designed strictly based on technical specifications for LTE and the competition in this field is very intense and a less advanced solution/design could get an unfair advantage by accessing the information as listed below from common domain. We believe that we have implemented a ground breaking solution and design into our Xiphos® Micro and the listed Exhibits/Items need to be protected from disclosure to our competitors in the industry. As the FCC records have an in-depth information and wide distribution, we believe that you can understand our concerns. We are strong in our belief that all vendors in the industry need to compete by their own merits. We regard these Exhibits/Items to be our intellectual property and therefore as confidential information.

This equipment is not available to be sold to the general public, (nor is it a consumer product) and can only be accessed and installed by trained service personnel under NDA (Non-Disclosure Agreement) with Oceus Networks. In addition, this product is installed in restricted areas and is only serviceable by the licensee or designated technicians.

There are advanced technical and design solutions/information in the Exhibits/Items, as mentioned above, that we regard as Oceus Networks proprietary, with actual and potential patents pending. The information can be advantageous to our competitors as well as sources seeking ways to hack past the built-in security functionality. These solutions or information thereof are not accessible even for our customers or partners unless non-disclosure agreements for particular item(s) have been signed.

Confidential product information can be found in, but not necessarily limited to, internal photos, block diagrams, schematic diagrams, and parts lists as well as certain documents, such as User Guides/Manuals. Those documents can only be accessible by the customers who purchase out the Xiphos Micro and accept the conditions and therefore are provided with unique information access.

We hereby request that the following documents be held confidential for 610-1003-142 and 610-1003-042:

- Exhibit 6 - Schematics
- Exhibit 7 - Parts List
- Exhibit 8 - Block Diagram
- Exhibit 9 – User Guides / Manuals
- Exhibit 13 – Internal Photos

If additional information is needed, please contact me at the below listed number.
