

GET FINDING

Setting up your new Breadcrumb Bluetooth™ Trackable Nock is quick and easy. Visit www.breadcrumbtech.com/setup for complete instructions on how to:

- 1 Download the free Breadcrumb app for iOS or Android devices
- 2 Properly install the battery and insert the nock into the arrow
- 3 Pair your Breadcrumb Bluetooth™ Trackable Nock to your smartphone
- 4 Manage the nock functions using the Breadcrumb app

PRECISE CONTACT POINTS

Engineered and molded for a controlled and consistent arrow release to ensure accuracy.

EASY ON/OFF ACTIVATION

No magnets, pullout switches or knife points required... The Breadcrumb Bluetooth™ Trackable Nock is armed and ready with a simple touch of its water-resistant activation button.

ULTRA BRIGHT LED

SOUND CHIP & SPEAKER

ACCELEROMETER

This powerful piece of hardware uses a motion sensor to activate when fired and not while in your quiver.

BLUETOOTH™ RADIO CHIP

With a range up to 100 yards, this tech component reaches out to communicate directly with your smartphone.

PCB PROCESSOR

The brains behind it all, this tiny microprocessor combined with our proprietary firmware controls the light, sound and Bluetooth™ tracking functions.

REPLACEABLE BATTERY

Providing up to 35 hours of continuous tracking power, the replaceable battery is controlled by the PCB to monitor battery life and conserve energy when needed.

THE SMARTEST NOCK IN ARCHERY

CONGRATULATIONS.

You have just purchased the world's first Bluetooth™ Trackable Nock. Now you can use your smartphone to track arrows, activate the LED light and operate the sound beacon through the Breadcrumb app.

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio

communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

IC Warning

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Portable device

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Appareil portable

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux radiofréquences. condition d'exposition portable sans restriction

Patent Pending
Designed and Engineered in the USA.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement

Portable device

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Appareil portable

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux radiofréquences. condition d'exposition portable sans restriction
