# Safety Guide

- **BREAKABLE:** Handle with care.
- **NOT FOR HUMAN CONSUMPTION.**
- **BEFORE FIRST USE:** Inspect lamp. **DO NOT USE** if lamp, cord, plug, or parts are damaged or defective.
- Always turn off all controls before unplugging the lamp.
- Always unplug lamp before handling, cleaning, removing, replacing, or adjusting parts.
- Keep away from water.
- **DO NOT USE** if lamp has been wet or exposed to water as this may result in electric shock or electrocution.
- Avoid using the lamp in high humidity environments.
- Intended for indoor use only.
- Unplug lamp before adjusting or removing parts.
- **WARNING: KEEP OUT OF REACH OF CHILDREN AND PETS.**

# Introduction

- Confirm the package contents and thoroughly read this manual before using your lamp.
- For your own safety, please follow the instructions for daily usage and maintenance.
- Illustrations may differ from the actual item depicted.
- NOTE: Always place Himalayan Salt Lamps on top of a coaster, placemat, tray, or similar item to protect your furniture. Himalayan Salt Lamps sometimes “sweat” which may damage furniture and certain types of wood.
- Step 1: Place the lamp on a flat and stable surface. Keep out of reach of children and pets.
- Step 2: Plug in your lamp.
- Step 3: If your lamp includes a dimmable switch, adjust the lighting to your desired level of brightness.
- Step 4: Unplug the lamp when not in use for extended periods of time.
- Supplied Accessories: 110V 60Hz 15W Incandescent Light Bulb

# Part Names

- ① Speaker Power
  - Press and hold to turn the speaker ON/OFF
- ② Mode Selection
  - Press to switch between Bluetooth (Blue indicator light will turn on) or AUX (Red indicator light will turn on)
  - Press and hold to reset Bluetooth
- ③ Volume -
  - Press and hold to decrease the volume
  - The lamp plays a tone when it reaches the maximum volume level
- ④ Volume +
  - Press and hold to increase the volume
  - The lamp plays a tone when it reaches the minimum volume level
- ⑤ Light Power and +/-
  - Press to turn the light ON/OFF
  - Press and hold to adjust the lamp's brightness
- ⑥ Indicator
  - Blue light on: Bluetooth mode
  - Blue light blinking: Bluetooth disconnected and waiting for pairing
  - Red light on: AUX mode
- ⑦ Loudspeaker
- ⑧ Light cup
- ⑨ Bulb Cap
- ⑩ Incandescent Light Bulb
- ⑪ AUX
  - Connects to an external device via a commercially available 3.5 mm stereo mini jack.
- ⑫ AC IN
- ⑬ AC Power Switch
  - Completely turn on or shut off internal power supply
- ⑭ Condensate water drainage

# Preparation

- Open the packaging
  - Once the lamp is removed from the box and before plugging in to a power outlet, pull the bulb cap (⑨) upward to check if the bulb is in good condition. If yes, place the bulb cap back into position and proceed to the next step. If not, please carefully replace the light bulb.
- Turn on the light and the speaker
  - First, turn on the AC power switch (⑬). Second, press the light power button (⑤), and the light will then turn on.
  - Press the speaker power button (①). The indicator light will then turn on. The lamp will play a startup tone when it is turned on. You should see a blue indicator light (⑥) blinking that signals the lamp is ready for pairing.
- Placing the salt chunks
  - Turn off the power switch and unplug the lamp from the wall outlet. Carefully place the salt chunks into the clear cylinder (⑧). The salt lamp speaker is ready for use once the salt chunks reach the rim of the cylinder without falling out.

# Pairing and Playing Back Music

If another device is already connected to the unit, terminate that Bluetooth connection by pressing and holding M for 3 seconds. You should then see the indicator light blinking blue. You may now pair it with the new device.

1. Press  to turn on the speaker.
2. The indicator light will begin blinking in blue.
3. Turn on the Bluetooth function on your device.
4. Find “INVITING HOMES L-1” in the device list and tap it to pair.
5. After pairing is complete, the indicator light will stop blinking and light up in blue. The unit plays a Bluetooth connection tone when a Bluetooth connection is established.
6. You may now play back music through your device.

# Listening to External Sources

- The lamp allows for the playback of external devices connected to the AUX terminal. A commercially available 3.5 mm mini-plug cable is required for this connection. Be sure to turn off the lamp by pressing the power button before connecting the external device.

1. Turn off the lamp
2. Plug the cable into the AUX terminal of the lamp
3. Connect the other end of the cable to the external device
4. Turn on the lamp
5. Press M and allow the red indicator light to turn on
6. Play back music on your external device
7. Lower the volume of the lamp and the external device before connecting

# Troubleshooting

Problem	Cause	Solution
The lamp cannot be turned on. The lamp does not operate properly.	The power outlet is not properly connected.	Connect the power outlet firmly.
	The AC power switch on the back of the lamp is turned OFF.	Turn the AC power switch ON.
The bulb is not turning on.	The incandescent bulb is broken.	Change the bulb.
	The light is not switched to ON.	Turn the light on using button ⑤ on the front control panel.
The speakers make no sound when connected through Bluetooth.	The Bluetooth connection is not stable or is disconnected.	Make sure the connecting device is within 10m (33 ft) of the lamp. Check the connecting device for the connection status.
	The volume of the unit and/or connecting device is set too low or muted.	Adjust the volume of the lamp and connecting device to a proper level.
The speakers make no sound in AUX connected mode.	3.5mm cable is not connected properly or the volume set is too low.	Check the cable and adjust the volume to a proper level.
The buttons are not functioning.	The MPU of the lamp is not working properly.	Turn off the AC power switch then wait for 20 seconds and restart the lamp.

# Care and Maintenance

- Always turn off the lamp and unplug it before cleaning.
- Let the lamp cool down before cleaning.
- Periodically wipe down your lamp with a clean and dry cloth to remove any moisture or dust particles that may have accumulated.
- DO NOT clean lamp with water. DO NOT wipe with wet cloth and DO NOT submerge in water. Always keep lamp away from water.
- NOTE: Himalayan Salt Lamps may “sweat” in humid conditions.

- **How to Replace your Salt Lamp's Bulb**

- **PRECAUTIONS:**

- Always choose the correct bulb that is compatible with your lamp's socket AND cord. Make sure it is the correct size AND wattage. This information can usually be found on the cord.
- DO NOT exceed manufacturer's maximum wattage as specified on the cord.
- When changing and replacing bulbs, always be careful of broken glass.
- **How to Replace the Bulb:**
  1. Unplug the lamp and allow the bulb to cool. (If your lamp is a basket-style lamp, remove the salt chunks and set them aside in a safe, dry location.)
  2. Remove the cord: Squeeze the metal prongs and pull the bulb socket straight out.
  3. Unscrew the bulb from the bottom of the socket.
  4. Screw in a new bulb carefully. The bulb should screw in smoothly. DO NOT force it in. Ensure the bulb is secured tightly in the socket.
  5. Reinsert the cord into the lamp. Ensure that it is fully inserted. DO NOT force it in. Tuck in the cord securely to make sure the lamp is balanced.

# Specifications

<b>Bluetooth</b>	
Bluetooth Version	Ver 4.2
Maximum Communication Range	10 m [33 ft] (without obstructions)
<b>AUX</b>	
Input Connector	3.5 mm stereo mini jack
<b>Power Amplifier / Speaker</b>	
Maximum Output Power	2 x 8W (1 kHz 1%THD)
<b>Lighting (Incandescent bulb)</b>	
Life Time	About 1000 hours
Specifications	110V 60Hz 15W
<b>General</b>	
Power Supply	100V-120V 60Hz
Power Consumption	35W
Power Off Consumption	less than 0.5W

## FCC STATEMENTS:

The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. In cases where the manual is provided only in a form other than paper. The equipment complies with FCC RF exposure limits set forth for an uncontrolled environment. The equipment must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC ID:2AOHS-IHL1**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

INDUSTRY CANADA:

IC:23420-IHL1

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radio électrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
