

LDAC LDAC

Use devices powered by Android 8.0 or later to experience LDAC quality sound. You can enable or disable LDAC using the soundcore app.

10

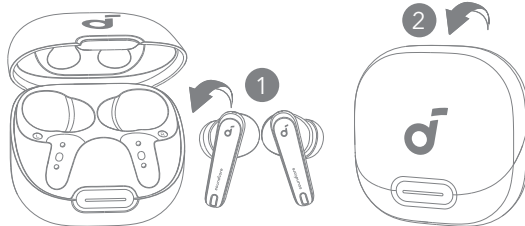

WEARING DETECTION

Playback will automatically pause when an earbud is removed and will resume again once you wear it. Wear either earbud to automatically answer an incoming call.

11

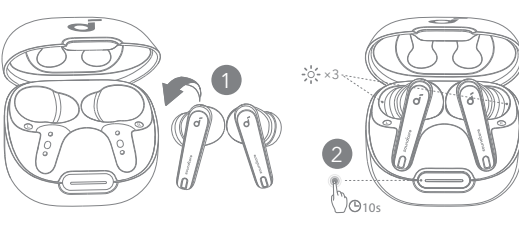

POWERING OFF

To power off, return the earbuds to the charging case and close it. The earbuds will automatically power off after 30 minutes* if they are not connected. *Duration can be set in the soundcore app.

12

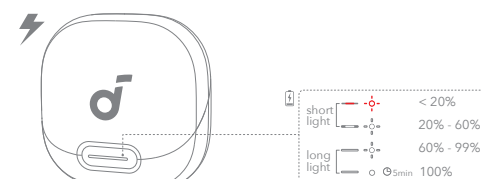

RESET

Place the earbuds in the charging case and leave the case open. Press and hold the charging case button all the way down for 10 seconds until the LED indicators flash white rapidly three times.

LDAC

LDAC and LDAC logo are trademarks of Sony Corporation.

Based on the SGS Lab testing result, the deepest band of noise reduction is up to 38dB, and the comprehensive noise reduction is up to 23dB. Key word of "Reduces Noise By Up to 98.5%" represents the noise reduction performance of the deepest frequency band.

DE: Gemäß dem Testergebnis des SGS-Labors beträgt der tiefste Bereich der Geräuschunterdrückung bis zu 38 dB, und die umfassende Geräuschreduzierung beträgt bis zu 23 dB. Das Stichwort „Reduziert Geräusche um bis zu 98.5%“ steht für die Rauschunterdrückungsleistung des tiefsten Frequenzbandes.
ES: Según el resultado de las pruebas de laboratorio de SGS, la banda más grave de reducción de ruido es de hasta 38 dB y la reducción de ruido general es de hasta 23 dB. La palabra clave de "Reduce el ruido hasta un 98.5%" representa el rendimiento de reducción de ruido de la banda de frecuencia más grave.
FR: Basé sur les essais en laboratoire SGS, la bande de réduction de bruit la plus profonde atteint 38 dB et la réduction globale du bruit atteint 23 dB. Le mot clé « Réduit le bruit jusqu'à 98.5% » représente les performances de réduction du bruit de la bande de fréquence la plus profonde.
IT: Secondo i risultati dei test di laboratorio SGS, la banda più profonda di riduzione del rumore arriva fino ai 38 dB e la riduzione completa del rumore arriva fino a 23 dB. La parola chiave "Riduce il rumore fino al 98.5%" riguarda le prestazioni di riduzione del rumore della banda di frequenza più profonda.
