Important Safety Instructions

- The recommended temperature range for devices and accessories is 0°C to 40°C (32 °F to 104 °F).
- Unless specifically indicated that it is safe to do so in the user guide or instruction manual, do not use the device in an environment that exceeds the recommended low or high temperature.
- Unless specifically indicated that it is safe to do so in the user guide or instruction manual, avoid exposing your device to direct sunshine or excessively wet environments.
- For pluggable equipment, the socket outlet should be easily accessible.
- Use only the adaptor provided by the manufacturer. Using unauthorized adapters may cause danger and violate the authorized use of the device or the warranty article.

Child Safety

- **THIS DEVICE IS NOT A TOY.**
- **Choking Hazard:** This product contains (or comes with) small parts, plastic elements, cables, and parts that may cause choking hazards. Keep your camera and its accessories out of the reach of small children. Consult a physician immediately if small parts are swallowed.
- **Strangulation Hazard:** Children get strangled in cords. Keep cords out of the reach of children (more than 3 ft / 0.9 m away).

Notice

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct

the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician for help.

FCC Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed/mobile exposure condition. The min separation distance is 20cm.

Notice: Shielded cables

All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.
