

Operation instructions

1. 把钥匙匹配到车子上之后,按开锁键 2 秒可打开车门,按闭锁键 2 秒可关车门,按警报键可用于寻车,按尾箱键可用于开启尾箱。
2. 点火钥匙用于手动开锁以及启动汽车

1. After matching the key to the car, press the unlock key for 2 seconds to open the door and press the lock key for 2 seconds to close the door.
 2. The ignition key is used to manually unlock and start the car.

产品参数

Product parameters

额定电压	Rated voltage	DC 3V
工作电流	Working current	<5mA
工作电压	Operating voltage	1.8V~3.6V
发射功率	Transmit power	>-20dbm
按键操作力	Key operation force	200±50g
工作温度	Operating temperature	-5° C +45° C
待机电流	Stand-by current	<1uA
发射频率	transmitting frequency	315M±75KHZ
调制方式	Modulation	ASK
电池	Battery	CR2032
按键耐久次数	Key durability	100,000 次以上 More than 100,000 times

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
