This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Caution: Exposure to radio frequency radiation. To comply with FCC RF exposure compliance requirements, for mobile configurations, a separation distance of at least 20 cm must be maintained between the antenna of this device and all persons. This device must not be co-located or operating in conjunction with any other antenna or transmitter.

Owl LTE Service

Owl LTE service connects your Owl Car Cam to a 4G cellular network so you can access live video of your car and instant reports from anywhere – anytime your phone has coverage.

Thank You!

We're excited to introduce you to your new Owl Car Cam, the first security camera for your car.

With Owl, you've got a clip for any situation: crashes, stops, break-ins and all the OMG moments you see while driving.

Your Owl is always on the lookout so you never miss a thing.

Before You Begin

Product requirements:

- Vehicles manufactured before 1996 may not work with this product.
- You must have iOS 11 or higher to use this product.
- If your vehicle's OBD port has a cover, it must be removed.

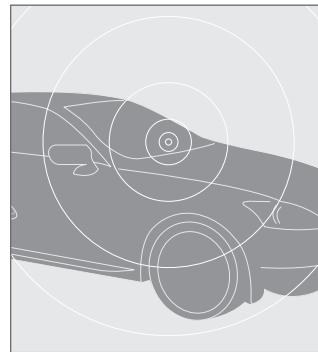

A Note About Privacy

With Owl, your privacy is protected.

- What you record with the Owl Car Cam is yours.
- Clips can only be shared by you.
- No one at Owl can see your clips unless you share them publicly.

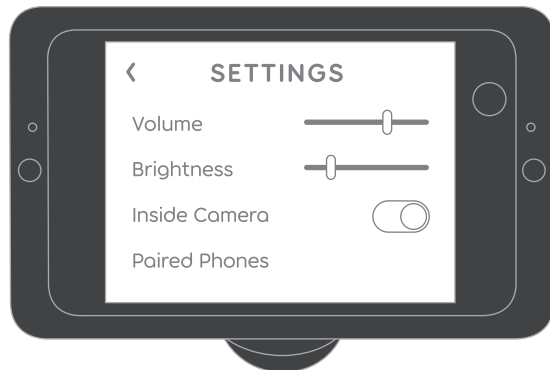

Explore Owl

- Always on – even when your car is off.
- HD video live-streamed to your phone – anytime and anywhere – with Owl LTE service.
- Instant access to your clips of crashes, break-ins, and traffic stops.
- Easily share your clips directly with others or through social media.

Using Your Owl Car Cam

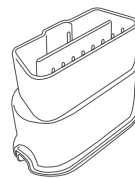

Settings & Turning off the Inside Camera

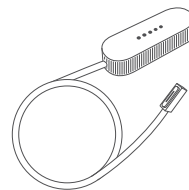

☰ Tap the menu icon in the top right corner to access camera settings, such as volume and brightness levels.

- Use the toggle switch to permanently set your inside camera to OFF.
- NOTE: The inside camera will remain OFF until switched to ON in the Settings menu.

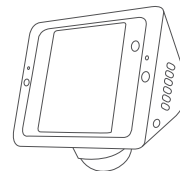

What's in the Box

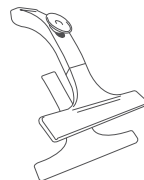

Owl OBD Power Adapter

Magnetic Power Cable

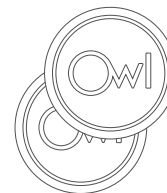

Owl Car Cam

Suction Beam & Tails

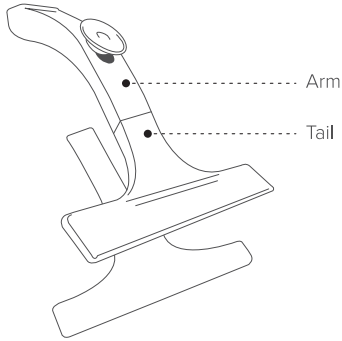

Tuck Tool

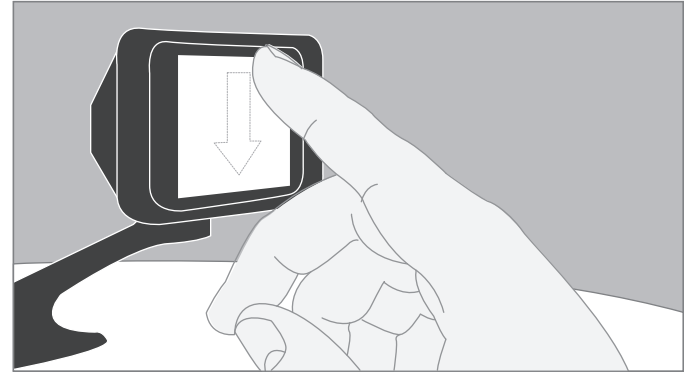

Decals

What's in the Box : The Suction Beam

- As noted in the diagram above, the Suction Beam is comprised of an arm and a tail.
- The Suction Beam fits comfortably in most vehicles. If you need to adjust the length, simply pull to remove the tail and replace it with one that is shorter or longer.
- NOTE: The longer tail helps with the interior view.

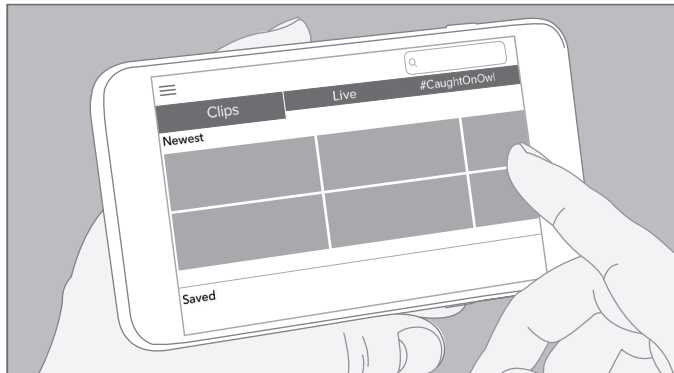

Using Your Owl Car Cam Temporarily Turn off the Inside Camera

- Swipe down on the display to temporarily turn off the inside camera.
- Swipe up to turn the inside camera back on.
- NOTE: Access the Settings menu to permanently turn off the inside camera.

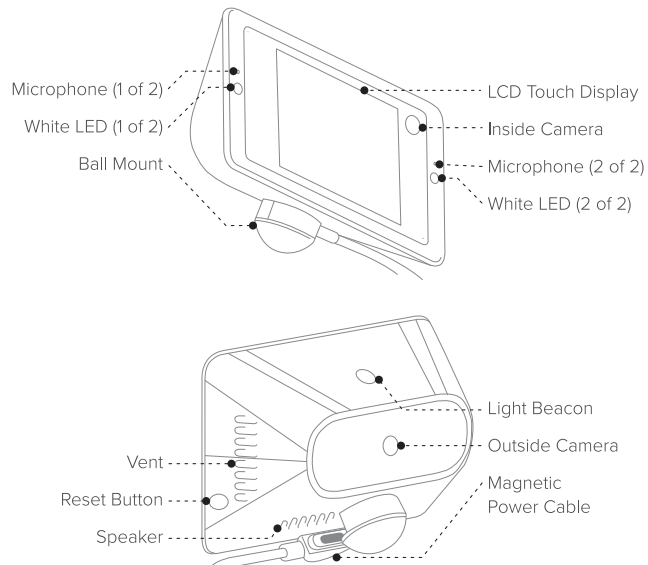

Using Your Owl Car Cam

See It in the Owl Cam App

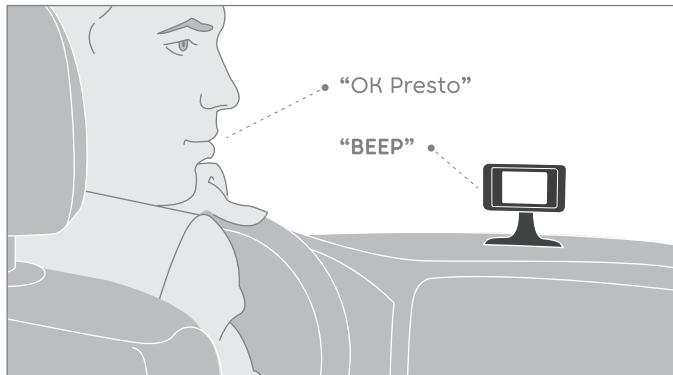

- Open the Owl Cam App on your phone.
- Tap the **Clips** tab.
- Your latest clips automatically appear under **Newest**.

What's in the Box : Owl Car Cam Features

Using Your Owl Car Cam

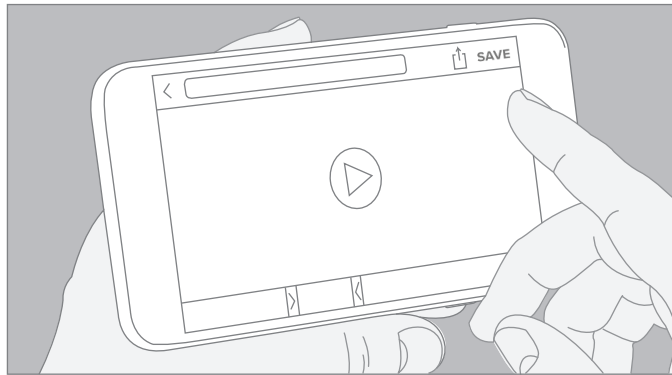

Send a Clip to Your Phone

- To save your first clip, say "OK Presto" or tap the screen.
- When you hear the beep, name your clip by saying a short title (example: "Beautiful sunset").
- Clips are automatically available in the Owl Cam App on your phone under **Clips**.

Using Your Owl Car Cam

Edit & Share Clips in the Owl Cam App

- Slide the yellow edit box to trim a clip.
- Zoom by pinching.
- To name the clip, type in the top bar then tap **SAVE**.
- Tap the upload icon  on the top bar to share by text, email, or on social media.
