- Discharge power indication: when the power is 1%-33%, the light is yellow and goes off after 10 seconds. (the power is 34%-67%, blue; the power is 68%-100%, green)

Specifications

Model	AOC-P002
PD Input	5V=3A/9V=2.22A 20W Max
PD Output	5V=3A/9V=2.22A 20W Max
Wireless output	10w max
Battery Capacity	4000mAh/15.2Wh
Rated Capacity	2100mAh/5V=3A
Dimensions	82×60×12.5mm
Weight	93g

To get USB Power Delivery, the following are required

- Device (phone, tablet, laptop) that supports USB Power Delivery
- USB-C charger with USB Power Delivery
- USB-C to USB-C cable or Apple MFi USB-C to Lightning Cable

- Dispose this product as per local law and regulations.

Packaging

- Wireless Power bank
- User Manual
- Service Card

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
