

Declaration

Due to the limited available space of the product, the nameplate space is not beautiful. Later, I learned from studying the FCC ID regulations that the ID information of the product can be an electronic label, with no more than three steps of operation, and the instructions are added. Therefore, the nameplates of the shipped products are all produced with electronic labels. It is hereby declared. Other circuits and other information of the product have not changed.

FCC Identifier and ISED Certification Number

The FCC Identifier (FCC ID) is available as an E-label within your Dash Cam's System Info pages.
To view the FCC ID please follow the steps below:

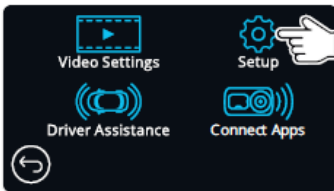

FCC Identifier and ISED Certification Number

Step 1:

Press the 'Menu' button to enter the Dash Cam's menu system.

Step 2:

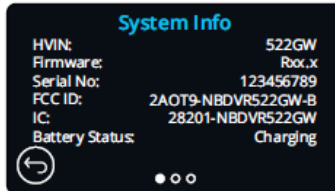

Press the 'Setup' button.

Step 3:

Swipe through the menu pages and select System Info.

The FCC Identifier (FCC ID) is seen as above.
