A 3D printed part, likely a filter or diffuser, featuring a grid of circular holes and rectangular cutouts. A QR code is visible on the right side, and a ruler is placed below for scale.

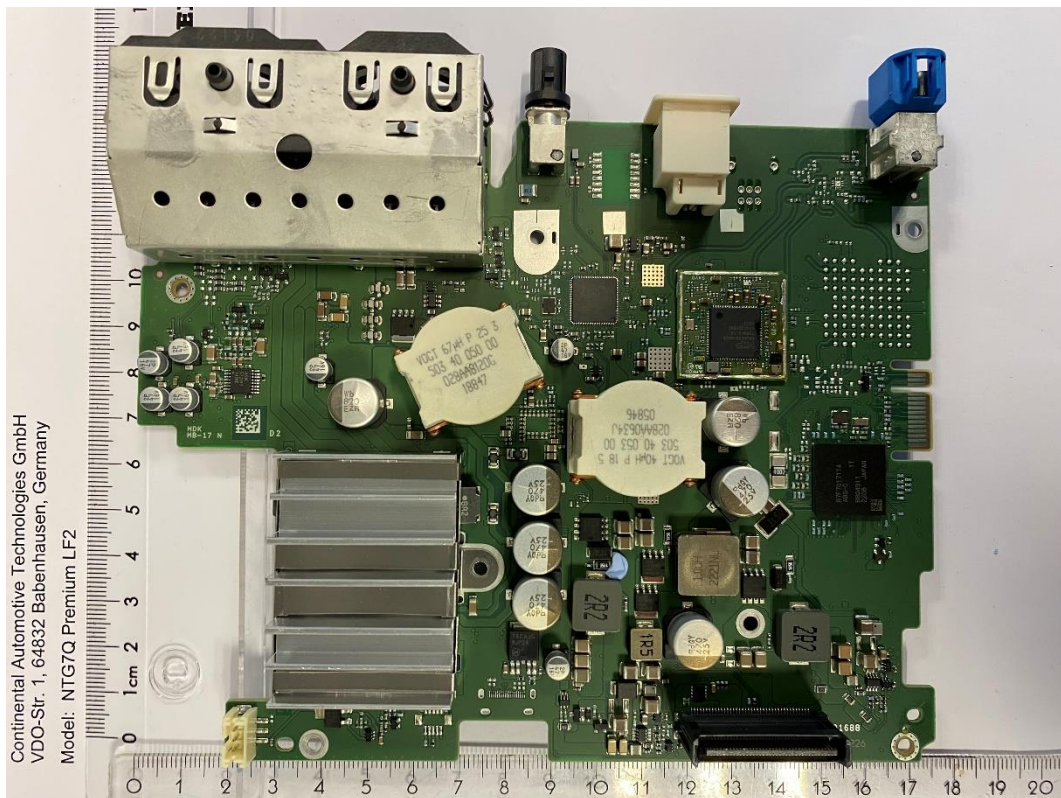

A photograph of a rectangular metal casting, likely aluminum, with a circular fan-like feature on its side. The casting is resting on a wooden block, and a ruler is placed below it for scale. The ruler shows measurements from 1 to 17 inches. The casting has a complex shape with a central circular feature and several rectangular protrusions. The surface of the casting is slightly textured and shows some signs of wear. The background is a plain, light-colored surface.
