### INSTRUCTIONS FOR USE

1. Connect the 15W CAR MAGNETIC WIRELESS CHARGER with the Type-C charging cable (Included) and other end of the cable to the output of a Quick Charger [with output rating DC **5V/2A** OR **9V/2A**,– NOT INCLUDED].

2. Smart Phone: Place your iPhone (new generation that is MagSafe compatible) or other smart phone (Qi compatible with magnetic back) on the magnetic surface for wireless charging of smartphone, then it starts to charge.

**REMARK:**

- a. If your phone model is compatible with wireless charging and you are unable to charge it wirelessly, please remove your phone case and retry.
- b. Placement of some smart phones on the magnetic surface for wireless charging might need to be adjusted, in order for their internal components to make contact appropriately and begin wireless charging.
- c. While charging your phone wirelessly, please keep any metal or magnetic object away from your phone by a minimum of 6cm.
- d. The lower ambient temperature, the faster charging speed. The charging speed in winter is faster than in summer.
- e. To avoid damaging internal circuits, don't charge in humid environments.
- f. Please keep the unit out of the reach of children and infants.

**Care and maintenance**

Read the following recommendations before using the device.

Do not expose the device to liquid, moisture or humidity to avoid damage to internal circuits.

Do not use abrasive cleaning solvents to clean the device.

Do not dispose of the device to fire.

Do not expose the device to contact with sharp objects as this will cause scratches and damage.

Do not let the device fall onto the floor. The internal circuit might get damaged.

Do not attempt to disassemble the device. No user serviceable parts.

**Specifications**

POWER: 5W / 10W / 15W (MAX)

INPUT: 5V-2A / 9V-2A

OUTPUT: 5V-1A / 9V-1.12A / 9V-1.66A

1 METER TYPE-C CABLE INCLUDED

PRODUCT SIZE: 9.5 x 6 x 2.7CM

**FCC Warning**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the

instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
